PREFACE

The Ministry of Statistics and Programme Implementation, Government of India launched a study on "Basic Statistics for Local Level Development" in rural areas of Goa during 2010-11 and 2011-12 containing the information on all sectors such as availability of basic facilities, Village infra-structure details, education facilities, land utilization, Employment status etc. This information has become increasingly important for preparation of plans at micro level.

It is hoped that this publication will serve as useful reference for providing village level statistics.

Thanks are due to the officers and officials of this Directorate who extended full co-operation for compilation and preparation of this report.

I hope this survey would go long way towards achieving the targeted goal of decentralized planning a success.

(Anand Sherkhane, IES)
Director

Porvorim.
July,2015.

INTRODUCTION

A High Power Expert Committee was constituted in the year 2002, as per the recommendations of National Statistical Commission, to look into availability of village level data with village functionaries, feasibility of electronic transmission of validated data from village to the blocks and blocks to the Districts and other related aspects to develop a village level data base. This was required due to devolution of greater responsibilities and powers to Gram Panchayats and Nagar Palikas for local planning, effective implementation and monitoring of various social and economic development programmes, need for availability of data and information on vital indicators at local level for allocation is felt for proper funding by the Authority.

As decided by the committee, a pilot study was conducted in nine states viz. Haryana, Gujarat, Karnataka, Kerala, Meghalaya, West Bengal, Bihar, Tamil Nadu and Tripura during 2003-04. On the basis of experience gained through the pilot survey and after due deliberations, the committee submitted its report in 2006.

Subsequently, the Ministry of Statistics and Programme Implementation formulated a new scheme on the pilot basis and on recommendations of the report. The scheme envisages compiling village level statistics at the Gram Panchayat level by/through Panchayat Secretary in coordination with the village level functionaries such as Anganwadi Workers, ANM, Chowkidar, Village Pradhan, Revenue Officials, Patwari etc. The study does not involve in compilation of information through house to house survey but the available village level data is compiled by the village Officials, preferably by Panchayat Secretaries in consultation with other village officials like ANM, Revenue Officials, ASHA, Village Headman, School Teacher etc.

OBJECTIVES

The principle objective of this pilot scheme is to explore feasibility of introducing a system predesigned to recognize, augment and improve existing recording and registration system leading to consolidation and preparation of a database for providing crucial inputs for micro level planning for all the Villages and Panchayats.

Various types of outcome indicators based on the data of the scheme can be important for planning and implementation of different rural development programme of Central and State Governments at block/Panchayat/Village level. Data so collected, collated and compiled under this scheme would be widely disseminated by various means, including that of placing them in the public domain and would serve as a better tool for an objective and evidence based assessment of the functioning of various developmental schemes.

The 73rd and 74th constitutional amendment mandated the empowerment of Panchayati Raj and Local Bodies accordingly constitutional status to these institutions and enabling them to take up the process of their self development.

SCOPE AND COVERAGE:

The pilot scheme covered around 500 Panchayats (at least one complete District) in each State/UT. Thirty-two States participated in the first phase of the pilot survey during 2008-09/2009-10 except Goa, Delhi and Chandigarh.

In a large number of States/UTs, staff of the Directorate of Economic and Statistics (DES) compiled data from the village registers and other

knowledgeable sources, in consultation with village level functionaries.

Second phase of the pilot survey was introduced during 2010-11 covering the same Districts(s). Goa also participated in this phase as its first phase and compiled information with the reference year 2010-11. Directorate of Planning, Statistics and Evaluation (DES-Goa) has launched the study in both the Districts of the State i.e. North Goa District and South Goa District covering all the 376 villages. During the study in Goa, the data has been compiled by the Statistical Personnel from the village registers and otherknowledgeable sources, in consultation with village level functionariesinstead of assigning the job to Panchayat Secretaries; however the Panchayat Secretaries acted as Nodal functionaries in verification of data collected. This is a centrally sponsored scheme implemented in the State under the directions of Ministry of Statistics and Programme Implementation. The data have been compiled by the staff of DES-Goa through the records available with the ANM/Health Officials, School Teachers, Anganwadi Workers, other knowledgeable persons etc. with the consultation of Village Panchayat Secretary. The second phase was also taken up in Goa during 2011-12. The data of both the years has been presented District/Taluka wise in this report.

METHODOLOGY:

The scheme has been executed for collecting data in respect of the schedule of information for 'Annual (Periodic) Data' or Schedule A and those of the schedule of information for 'Monthly (Dynamic) Data' or Schedule B related to the reference year.

The schedule A is required to be filled up once in a year. It has 13 blocks from 0 to 12. These blocks include data on Population, Household including households below poverty line, Morbidity and Disability, Literate persons, Enrolment and drop outs in school, Land utilization in the village, Market outlets etc.

The schedule B is required to be filled up on monthly basis. It has 20 blocks and they include data on Live births, Still births, Deaths, Deaths of Women, Pregnant women, Migration, Outdoor and indoor patients and their details, Marriages, Street Children, Sex workers, Beggars, Incidence of violence against women, Small scale enterprises and workers therein etc. This schedule has not been canvassed in Goa during the study.

GLIMPSES OF GOA:

Goa is one of the smallest state of the Indian Union by size admeasuring 3702 Square kilometres (0.11 % of the total area of India) and population of14,58,545 persons (0.12 % of the total population of India) as per 2011 Census. It is located in the West India or Western Ghats and the region is known as Konkan. It is bounded in the north by Maharashtra and to the south by Karnataka the two neighbouring States, its western coast is surrounded by Arabian Sea. It has a rich and unique culture and tradition.

'Goa', the name seems to have been derived from 'Gomanta' which is referred to in the Bhishmaparva of the great epic Mahabharata and also the Harivamsa and Skandapurana. It is referred to in old inscriptions variously as Gomanchala, Gomanta, Gopakapura and Gove. The Madras glossary connects it with the Sanskrit 'Go' (a cow) in the sense of 'cowherds' country. According to Puranic traditions, Parshurama, the sixth incarnation of God Vishnu, is said to have reclaimed the land of Gamanta from the Sea and the

Aryans and Brahmins of different stocks were settled by him on the banks of the rivers Gomati and Aghanashini which are now popularly known as Mandovi and Zuari respectively.

Goa has been ruled by different empires like Bhojas, Mauryas, Chalukyas, Rastrakutas, Shilharas, Kadambas, Bahamanis, the Vijaynagars and Adilshahis for over 1500 years before the advent of Portuguese in 1510 A.D. The cultural impressions left by these rulers became the traditions of this region which can be witnessed in the folk dances, music and drama (locally called Natak, Tiatr and Zagor). Traditional drums like Pakhwaj, Ghumot, Tasso, Dhol, Xemol, Tabla are practiced during celebrations.A native of Goa is called 'Goan' in English, 'Goenkar' in local language of Konkani, 'goes' or 'goesa' in Portuguese and 'Goveker'in Marathi.

After India achieved independence in 1947, Goa along with Daman and Diu was still under the Portuguese rule, the Government of Indiatherefore made all possible efforts to persuade Portugal to withdrawpeacefully from Goa which was turned down by Portuguese Government, that led Government of India to send army to liberate Goa. This historic event that marked the end of 450 years rule of Portuguese took place on 19th December 1961.

The Portuguese though ruled for long-time in Goa, they do not deeply influence the indigenous art and culture of the region. Some new styles and traditions involved within the elites but not on the entire population.

The population counting or census taking in Goa has been a long tradition. The references available shows that the population of Goa in 1848 was 3,55,402 inhabitants. The first two official attempts to hold censuses were made in 1850 and 1878 but no reports are available, except a volume of1881 census containing the details of population of Goa, Daman and Diu as 4,06,563 in 1850 and 4,42,883 in 1878. Since 1881 regular censuses were held almost at a ten yearly interval up to 1960 under the Portuguese rule and then under Indian administration. As per 2011 Census the population of Goa

recorded 14,58,545 inhabitants with overall population growth rate during theended decade was 8.2%.The density was 394 persons per square kilometre.

As per the records available there existed 102 villagesin Goa during 1900 A.D. which number increased to 165 in 1921, 251 in 1950 and 386 in 1981 but then the number of villages started decreasing and number of towns increased due to urbanization of the State.

Tourism is Goa's primary industry; it handles around 12 % of the foreign tourists arrivals in India. In winter tourists from abroad visit Goa to enjoy the climate while during summer tourists from across India come on holidays. The land away from the coast is rich in minerals and ores and mining forms the second largest industry. Mining in Goa focuses on ores of Iron, Bauxite, Manganese, Clays, Limestone and Silica. However, Agriculture also offers employment to a sizeable portion of inhabitants with cultivation of Paddy, Areca nut, Cashew nut and Coconut. Fishing industry is also flourishing and is practiced by traditional way as also by large scale mechanized trawling. Other industries include the manufacturing of Pharmaceuticals, Chemicals, Pesticides, Fertilizers, Tyres, Tubes, Footwear, Steel rolling, fish and fruit canning, Cashew nuts, Breweries products etc.

The State of Goa has been divided into two Districts viz. North Goa and South Goa for revenue administration purpose. Both the Districts are further sub-divided into 12 sub-Districts or Talukas, six of them placing in each District. Study during first phase of this survey reveals that there were in all 376 villages in Goa during 2010-11, of them 234 lie in North District while remaining 142 were distributed in South District.The second phase in 2011-12observed that the number of villages in North Goa was increased by one number taking the strength to 235 owing to the public demand of a portion of municipal area in Sanquelim Municipal Councilof Bicholimtaluka to allot them rural status.

The taluks' in North Goa are Pernem, Bares, Tiswadi, Bicholim, Sattari andPonda while in South District they are Salcete, Mormugoa,Quepem, Sanguem, Dharbandora and Canacona.

The staple food of a Goan is fish-curry and rice; however vegetables and meat are also consumed.

The weather is moderate ranging between 20 to 34 degrees centigrade from winter to summer with high precipitation averaging to 3000 mm from mid-June to September.

Goa is very popular all over the world known for its beaches, temples, churches, music, spices, greeneries of vegetation etc. and this is well witnessed in the rural parts of the State.

The population recorded in both the Districts as per 2011 Population Census was 8.18 lakhs and 6.41 lakhs respectively of which rural population was 3.25 lakh or 40 % in North Goa District while in South District it was 2.27 lakh or 35 % of the district. Panchayati Raj system is prevalent in rural Goa; there were in all 189 Village/Gram Panchayats comprised of 376 villages as enumerated during 2010-11 and 190 Village Panchayatscomprised of 377 villages as per study in 2011-12. District wise distribution of Village Panchayats were 120 Village Panchayats with 234 villages and 69 Village Panchayats with 142 villages in North and South District respectively during 2010-11 while the number in North Goa District during 2011-12 pertaining to Village Panchayats was 121 and villages was 235 due to allotment of rural status to a portion of municipal area. Thus the villages were 376 and 377 during 2010-11 and 2011-12 respectively.

FINDINGS OF THE STUDY

Selected findings of the study during the two consecutive years 2010-11 and 2011-12 are analysed District wise in the following tables, while the details Taluka-wise can be referred to in the Statements section of this report.

Number of villages in taluka with availability of some basic facilities in both the Districts are presented in below table.

Table – 1

Number of Villages in Districts with availability of some basic facilities

District/ State	Number of villages in District	Number of Villages with					
		Elec-tric conn-ection	Major Source of drinking water (Tap)	Drai-nage Syst-em pass-ing	Pucca street	Per day frequency of at least five roadways buses	Street light
1	*2*	*3*	*4*	*5*	*6*	*7*	*8*
2010-11							
North Goa	234	232	204	234	214	154	232
South Goa	142	142	125	142	129	78	142
Goa State	376	374	329	376	343	232	374
2011-12							
North Goa	235	233	209	235	215	153	233
South Goa	142	142	129	142	130	82	142
Goa State	377	375	338	377	345	235	375

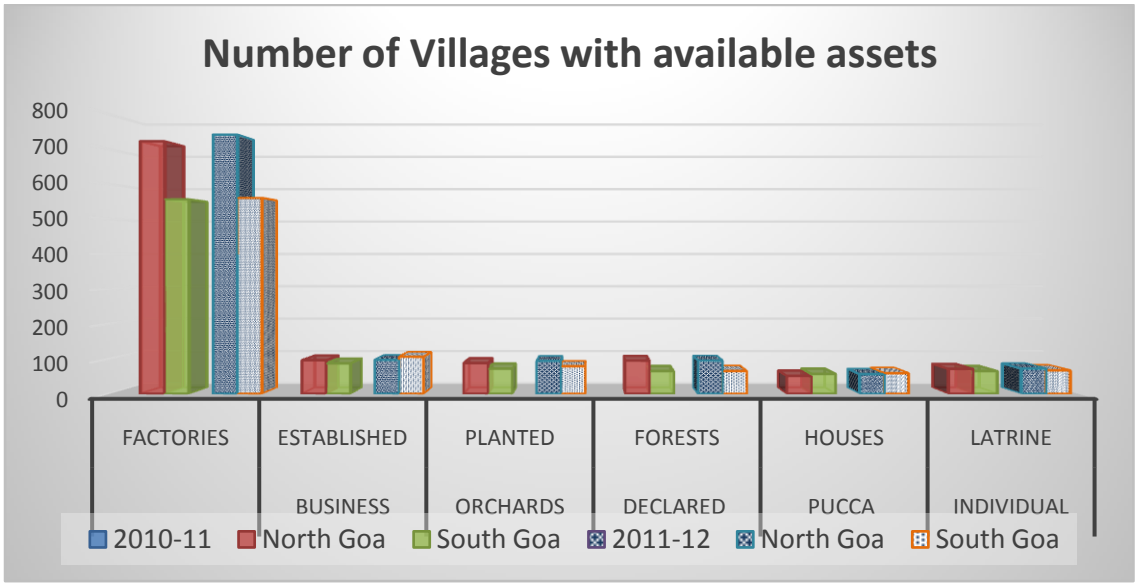

The number of villages in North Goa has increased from 234 to 235during 2011-12 due to the demand of the residents of Harvalemward in Sanquelim Municipal council of BicholimTaluka to restore themselves with rural status. The villages located in both the Districts of the State were 62 % and 38 % respectively in North and South District.

Electricity is one of the essential facilities for lighting and to operate modern household appliances. All the villages in both the Districts of Goa electrifiedexcept two in North Goa.The households nearing to cent percent in these villages have electric connection. Available sources of drinking water are many in Goa but the major source of drinking water forms the Tap water, the percentages of villages having at least one household connected with this source was 87.5 % during 2010-11 which increased to 89.7% during 2011-12 in the State. Drainage system whether natural or manmade of any size passes through all the villages which is very essential otherwise and specially to drain the rain water as Goa comes under the coastal zone which gets very heavy rainfall. Over 91 % of the villages during 2010-11 and 2011-12 had Pucca Street passing through their jurisdiction and connecting to other point, this facility enables the inhabitants to have quick access to any destination desired for the purpose of job, education or other reason. The frequency of roadway buses vary from village to village or town, the average percentage of per day frequency of at least five roadway buses in the villages of Goa was around 62 % during both the survey periods. As far as Street light is concerned, all the villages in Stateexcept two in North Goa District availed this facility.

Table - 2

Number of Villages with availability of Assets

District/ State	Number of Facto-ries	Number of Business Establis-hments	Number of villages with			
			Orcha-rds Planted (Number)	Decla-red Forest Area (Number)	% of pucca houses	% of houses having individual sanitary latrine
1	*2*	*3*	*4*	*5*	*6*	*7*
2010-11						
North Goa	722	96	88	95	51	71
South Goa	556	87	72	65	57	65
Goa State	1278	183	160	160	54	68
2011-12						
North Goa	741	97	94	95	56	72
South Goa	560	106	79	65	59	67
Goa State	1301	203	173	160	57	70

Soon after the liberation of Goa, the industrialization of the region took momentum due to the favourable administrative policy adopted by theGovernment. Factories and establishment businesses recorded in the rural areas of the state were 1278 and 183 respectively during 2010-11 which number increased to 1301 and 203 during following year. The number of orchards planted during 2011-12 increased by 8 % over the previous year while Government declared forest did not alter during the reporting period.

It may be seen in the above table the percentage of villages (rural) in Goa that had majority ofpucca houses were 54 % and 57 % respectively during 2010-11 and 2011-12. The percentage of villages with houses having individual sanitary latrine,which is hygienically very essential, was found to be 68 % and 70 % respectivelyduring both the years of study. The detailed distribution of these assets/facilities may be referred in statement section.

Table - 3

Number of villages possessing facilities within or outside its boundary.

District/ State	Number of Villages with				
	Panchayat Head Quarterswithin village	Taluka Head Quarter within 3 Kms.	Bus stop Within village	Metalled road Within village	All weather road within village
1	*2*	*3*	*4*	*5*	*6*
2010-11					
North Goa	120	7	199	214	231
South Goa	69	10	120	137	136
Goa State	189	17	319	351	367
2011-12					
North Goa	121	7	200	215	231
South Goa	69	10	120	137	136
Goa State	190	17	320	352	367

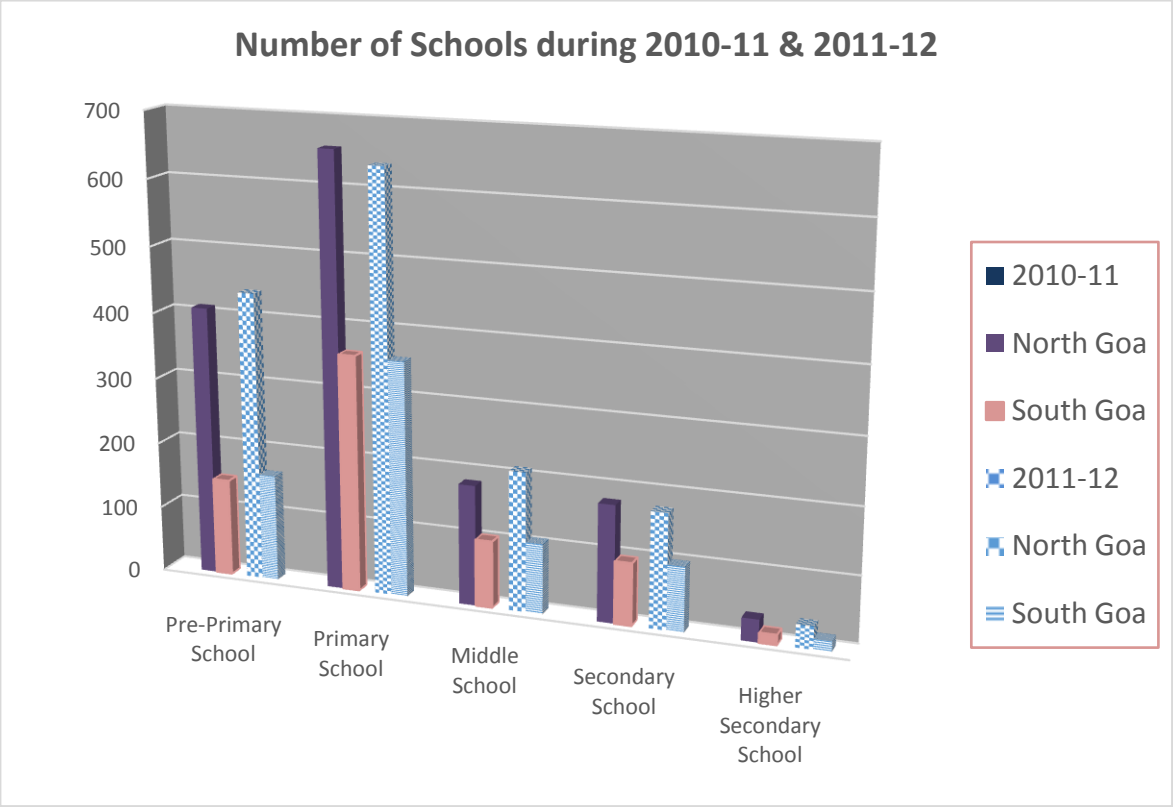

As may be seen in the above table thatjust over 50 % of the villages in Goa had Panchayat Headquarters within their boundary.Seventeen villagesin the State were away from the Taluka Headquarters by less than three kilometres. 85 % of the villages had a bus stop within thejurisdiction of their village, over 93 % of the villages were paved with metalled road while justbelow three percent of the villageswere deprived of all weathered road.

Above three tables give the account in brief the basic amenities available to the rural residents at the doorstep of their house. The development of any area depends upon the facilities available to its residents.

Table - 4

Number of School facilities within Village boundary

District/ State	Number of Schools				
	Pre-Primary School	Primary School	Middle School	Secondary School	Higher Secondary School
1	2	3	4	5	6
2010-11					
North Goa	409	656	182	177	34
South Goa	147	358	101	94	15
Goa State	556	1014	283	271	49
2011-12					
North Goa	437	636	210	174	34
South Goa	162	356	106	98	16
Goa State	599	992	316	272	50

The number covering Pre-primary Schools to Secondary Schools whether Government, Semi-Government or privately managed while the Higher Secondary Schools controlled either by Government or Semi Government in the villages of the respective District during the survey periods are presented in the above table. The number of all category schools have increased except Primary schools during the year followed 2010-11.

Table below depicts that there were 10 colleges conducting Degree course during the survey period. The onlyMastersDegree course operatingCollege in the rural parts of the North District in the State was raised to number 2 during 2011-12. Apart from the regular educational institutes there were 7Industrial Training Institutes, 7 Non Formal Education Centres, 11 Schools for Blind and Mentally Retarded persons and 18 Vocational Training Centres functioning in the villages of Goa during 2010-11.The Non Formal Education

Centres,Schools for Blind and Mentally Retarded persons andVocational Training Centres increased by 43%, 45 % and 11%respectively during2011-12 where as the number of ITI did not alter.

Table - 5

Number of other Educational facilities within village boundary

District/ State	Number of					
	College With Degree course	College with Masters Degree course	Industrial Training Institute (ITI)	Non-Formal Education Center (NFEC)	School for blind/ mentally retarded	Vocational Training school/ Center
1	*2*	*3*	*4*	*5*	*6*	*7*
2010-11						
North Goa	6	1	3	6	8	11
South Goa	4	0	4	1	3	7
Goa State	10	1	7	7	11	18
2011-12						
North Goa	6	2	3	8	11	13
South Goa	4	0	4	2	5	7
Goa State	10	2	7	10	16	20

The number of students attending the, Middle, High School or Higher Secondary by sex appended in the table below seems to be in increasing trend except in some cases such as Primary Schools. The reason may be attributed to continuous very low growth rate of Population during the last few years as witnessed during 2011 Population Census which estimated the decennial growth rate as 8.17% has slowly brought down the number of Children in the age group 0 to 6 years.

Table -6

District wise Students attending School

Taluka/ District/ State	Primary School		Middle School		High School		Senior Secondary School

Table -7

Number of Villages possessing day to day use facilities within its boundary.

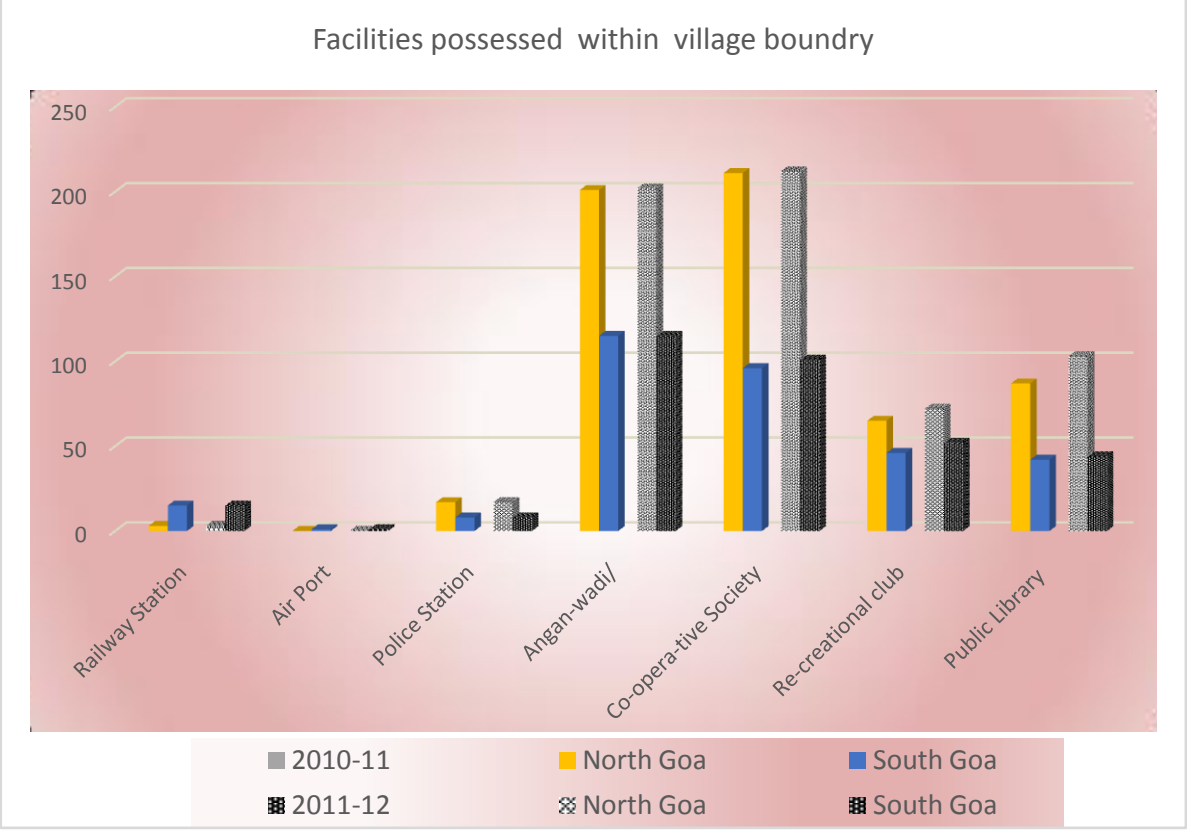

District/ State	Number of Villages with						
	PHC/ Commu-nity center	Medicine shop	Post Office	Bank	Fair Price shop	Weekly market	Fertili-zer shop
1	*2*	*3*	*4*	*5*	*6*	*7*	*8*
2010-11							
North Goa	107	55	106	82	123	16	21
South Goa	75	41	56	55	73	26	27
Goa State	182	96	162	137	196	42	48
2011-12							
North Goa	107	64	106	97	139	16	22
South Goa	75	41	56	62	71	26	34
Goa State	182	105	162	159	210	42	56

The 48 % villages of the State had a Government Health care centre and 26 to 28 percent villages were equipped with Medicine shops to take care of the health of the inhabitantsrespectively during the years in discussion. The percentages of Villages set up with Post Offices were stable on 43 % while the percentages of Banks were 36 % and 42 % respectively during both the years. The number of villages having Fair Price shops was 196during 2010-11 have improved by 7 % in the following year as compared to 2010-11. There were 42 weekly markets (38 % in the North and 62 % in the South District). 48 Fertilizer shops in the State (44 % in North and 56 % in the South District) increased to 56 in 2011-12 due to new fertilizer shops opened in the rural parts(1in North District and 7 in South District) as per information collected during the survey period.

Table -8

Number of villages possessing other facilities within its boundary.

District/ State	Number of Villages with						
	Railway Station	Air port	Police Station	Angan-wadi/ Noon meal center	Co-opera-tive Society	Re-creational club	Public Library
1	*2*	*3*	*4*	*5*	*6*	*7*	*8*
2010-11							
North Goa	3	0	17	201	211	65	87
South Goa	15	1	8	115	96	46	42
Goa State	18	1	25	316	307	111	129
2011-12							
North Goa	3	0	17	202	212	72	103
South Goa	15	1	8	115	101	52	44
Goa State	18	1	25	317	313	124	147

Prior to the commissioning of Konkan Railway which now connects Goa to Mumbai in Maharashtra State and Mangalore in Karnataka State, a route of Southern Railway connecting Margao and Mormugao to Londa in Karnataka State was in operation for goods and passenger traffic. The number of villages set up with railway stations have increased to 15 in South Goa at the same timeNorth Goa was bestowed with three fresh Railway Station which area was newly brought on Railway map. There is an only International air port in the State situated in MormugaoTaluka of South Goa District. 7 % villages had Police Stations. The percentages of villages set up with Anganwadi/Noon meal Centre, Co-operative Society, Recreational Club and Public Library were 84 %, 82 to 83 %, 30 to 33 % and 34 to 39 % respectively during the years referred.

Table - 9

District wise Area irrigated by source

District/ State	Area irrigated in Hectare by source				
	Government canal	Wells/ Tube wells	Tanks	Other source	Total area irrigated
1	*2*	*3*	*4*	*5*	*6*
2010-11					
North Goa	2155	2784	661	7175	12775
South Goa	1462	1879	64	5670	9075
Goa State	3617	4663	725	12845	21850
2011-12					
North Goa	2155	2784	661	7175	12775
South Goa	1462	1879	64	5670	9075
Goa State	3617	4663	725	12845	21850

Irrigation is very essential for growing agricultural crops, the information of area irrigated in villages by different sources is collected during the study. The major part of area irrigated (58.8 %) as per the survey recordshappens to be the other source, followed by Wells/Tube wells (21.3 %) and the rest (19.9 %) by Government canals and Tanks source.The area irrigated by different sources in both the Districts was accounted for 58.5 % in North District and 41.5 % in South District. The distribution stands in the following year as no frequent changes takes place in a span of few months.

Table - 10

District wise Operational holdings

District/ State	Number of Operational Holdings				
	Marginal (Below 1 Hectare)	Small (1 – 4 Hectare)	Medium (4 -10 Hectare)	Large (10 + Hectare)	Total Operational Holdings
1	*2*	*3*	*4*	*5*	*6*
2010-11					
North Goa	36520	7065	1316	374	45275
South Goa	23380	7496	908	212	31996
Goa State	59900	14561	2224	586	77271
2011-12					
North Goa	36520	7065	1316	374	45275
South Goa	23380	7496	908	212	31996
Goa State	59900	14561	2224	586	77271

The total Operational holdings in the State were 77271out of which 59900 or 77.5 % were marginal holdings who operated area below one hectare, the balance 22.5 % was shared by Small (18.8 %), Medium(2.9 %)and Large(0.8 %) Operational Holdings. The percentage of total holdings in North Goa and South Goa were 58.6 % and 41.4 % respectively.

Table – 11

District wise number of Livestock and Poultry

District/ State	Number of Livestock/Poultry					
	Cattle	Buffalos	Goats	Pigs	Hens	Others
1	*2*	*3*	*4*	*5*	*6*	*7*
2010-11						
North Goa	23631	12930	8621	7023	30385	23533
South Goa	21389	9051	5782	16354	30892	21445
Goa State	45020	21981	14403	23377	61277	44978
2011-12						
North Goa	24498	13294	8962	8246	33449	27730
South Goa	21556	10194	7878	19564	35243	20457
Goa State	46054	23488	16840	27810	68692	48187

The number of livestock and poultryreared in the State during the survey recorded an increase in their production in the following year. Cattle, Buffalo and Goats are reared for milk purpose while pigs and hens for consumption of flesh by the inhabitants.

Table - 12

District-wise Storage and Marketing outlets

Taluka/ District/ State	Number of Storage/Marketing Outlets				
	Fair Price Shops	Mandis/ Regular markets	Cold storages	Godowns/ Warehousing facility	Other shops
1	*2*	*3*	*4*	*5*	*6*
2010-11					
North Goa	217	44	42	44	12843
South Goa	107	45	68	88	8789
Goa State	324	89	110	132	21632
2011-12					
North Goa	221	44	42	48	12856
South Goa	110	45	79	88	8802
Goa State	331	89	121	136	21658

Public distribution system has been implemented by the Government through Civil Supplies Department in the State which make available the essential food-grains to the residents at reasonable rates. There were as many as 324Fair Price shops during 2010-11 which number increased to 331in the rural areas of the State during the following year thereby assigning a growth of 2 %. The number of Regular markets, Cold storages, Go-downs and Other shops were also recorded. On an average there was a regular market for every 4 villages, a cold storage and a Go-down/Warehousing facility for every 3 villages so also the other shops were established in sufficient number to cater to the needs of the residents.

Table - 13

District wise Percentage employment

Taluka/ District/ State	Percentage							
	Self employed		Wage employee		Rural Labour	Un-employed	Un-employed (15 to 24 years age group)	Not in Labour force
	Agriculture	Non-Agriculture	Agri-cultu-re	Non-Agriculture				
1	*2*	*3*	*4*	*5*	*6*	*7*	*8*	*9*
2010-11								
North Goa	21	20	10	16	11	11	8	2
South Goa	23	19	7	15	12	11	9	4
Goa State	22	19	9	16	12	11	8	3
2011-12								
North Goa	21	22	10	20	9	9	6	3
South Goa	21	21	8	18	11	10	7	4
Goa State	21	21	9	19	10	10	7	3

The percentages of self employed in the villages of the State was 22 % during 2010-11 under Agricultural activities and 19 % under Non-Agricultural activities, the year 2011-12 witnessed a marginal variation in South Goa District where the self employed under Agriculture activity decreased and the non-agriculturalactivity increased.Wage paid employees, Rural Labours and unemployed had a mixed behaviour.The percentage of persons not coming under the purview of labour force such as children, old aged, sick and disabled persons was 3%as observed during the survey period.

STATEMENTS

1. Number of villages in taluka with availability of some basic facilities (in villages) during 2010-11

1.1 Number of villages in taluka availability of some basic facilities (in villages) during 2011-12

2. Number of villages with Assests (in the village) during 2010-11
