The objective being better performance, better adaptability and to maintain the breeding programme, it is proposed to procure additional stock of pure Sahiwal and pure Murrah breed to strengthen the Livestock Farm. The Budget Estimates for the year 2022-23 is ₹ 2.50 lakh.

5. Government Livestock Farms **2404/01/102/06**

These farms supply good quality cross bred heifers to farmers at reasonable price. The farms also serve as demonstration centers for the purpose of educating farmers in the field of modern bovine management, fodder cultivation practices and distribute fodder tussocks. Also paravets are imparted practical training periodically. It is proposed to upgrade the Cattle Breeding Farm at Copardem and Livestock Farm Dhat. Every year 5% to 10% of the animals which are uneconomical and old are to be replaced by introducing fresh stock so as to meet

the requirements of the farm and augment the number of Calf/Heifers to be sold to the farmers of Western Ghat areas i.e. Sanguem, Dharbandora, Sattari and Canacona at reasonable rates fixed by the Government. Provision is made towards maintenance of livestock, feed, materials, other expenditure and salaries. The Budget Estimates for the year 2022-23 is ₹ 1458.00 lakh.

6. Key Village Scheme **2404/01/102/07**

This scheme is aimed at upgrading the local non-descript cows with exotic germ plasma for better productivity. The entire State has been provided with frozen semen stock and liquid nitrogen and the same is being monitored. The other activities undertaken are Artificial Insemination (A.I.) procurement of exotic supply of frozen semen, maintaining of buffer stock, continuous supply of frozen semen and liquid nitrogen to all centers and Dispensaries, Hospitals in the State of Goa.

It is proposed to lay emphasis on genetic upgradation of indigenous breeds of livestock. The State does not have recognized breeds of cattle. Nearly, 70% of them are local and non-descript type. As such, it is proposed to upgrade the local cattle with germ plasm of high yielding progeny tested bulls of Jersey/Holstein Fresian breed. It is proposed to cover the entire cattle population in the State under frozen semen technology as per breeding policy finalized. It is proposed to revise the Breeding Policy to suit the needs of the State to augment milk production. The Semen Bank will be upgraded as per requirement of the State. Provision is made towards feed, transport of liquid nitrogen, rent of establishments, minor works, purchase of materials, other expenses and salaries.
