# PREFACE

Lack of reliable information is one of the greatest impediments for Policy Makers and Planners. Non availability of adequate information always hampers the desired strategy. In this context, the first Economic Census was conducted in 1977, the second in 1980, third in 1990, fourth in 1998 and fifth in 2005. The objective of the first Economic Census was however, limited in the sense that it covered only the non-agricultural establishments which employed at least one hired person on a fairly regular basis. But, complete enumeration of all economic activities excluding crop production and plantation was conducted during the second and subsequent Economic Censuses.

The Sixth Economic Census involved enumeration of all the Establishments of the State in the organized and unorganized sectors, excluding those engaged in Crop production, Plantation, Public Administration, Defence and Compulsory Social Security Services, scattered in 3137 enumeration blocks of the State. The main highlight of the Census was that, Handicraft / Handloom Establishments were identified separately for the first time and the data tabulated.

The field work of the Sixth Economic Census in Goa was initiated in the 1st week of July 2013. The information was collected through two main schedules namely (i) Schedule 6A: Household and Establishment Listing Schedule and (ii) Schedule 6C: Directory of Establishment Schedule. The third schedule, namely Schedule 6B: Establishment Abstract was prepared based on the data contained in Schedule 6A.

It is hoped that the information presented herein will be of immense use to the Policy makers, Planners, Researchers, Academicians and other stakeholders.

Chapter I

# INTRODUCTION

## GENESIS

**1.1** The availability of timely and reliable statistical data is an essential pre-requisite for a sound, realistic and systematic planning of the economic development of any region, state or country. Statistical data concerning non-agricultural sectors of our economy are presently available in respect of the organized sector comprising registered factories, mines, railways, civil aviation, state transport undertakings, major ports, banks and insurance companies etc. However, it appears that adequate data is not available for the unorganized sectors of the economy. Information on unorganized sector throughout the country was, therefore, considered essential by the Union Government to provide requisite information for proper planning, development and systematic compilation of the National and Regional Accounts as well.

The Central Statistical Organisation (CSO), since its inception, has been instrumental in creation of database for various sectors of the economy and its periodic updation so as to meet the requirements of the planners for sound and systematic planning both at the macro as well as micro level. While data requirements may be enormous in various sectors, the judicious collection and maintenance of data for various sectors within the available resource is a challenge. Our economy can broadly be classified into two sectors namely Agricultural and Non-Agricultural sectors. Fairly reasonable database exists for Agriculture Sector where as such database for Non-Agricultural sector is much to be desired. Keeping in mind the importance of the non-agricultural sector in the economy and the non availability of basic frame for adoption in various sampling techniques for collection of data and estimation of various parameters, Economic Census was felt necessary.

## 1.2 ECONOMIC CENSUS

The first co-ordinated approach was made by the Central Statistical Organisation (CSO), Government of India, by launching a plan scheme 'Economic Census and Surveys' in 1976. The scheme envisaged organizing countrywide census of all economic activities (excluding those engaged in crop production and plantation) followed by detailed sample surveys of unorganized segments of different sectors of non-agricultural economy in a phased manner during the intervening period of two successive economic censuses. The basic purpose of conducting the Economic Census was to prepare a frame for follow up surveys intended to collect more detailed sector specific information

between two Economic Censuses. In view of the rapid changes that occur in the unorganized sectors of non-agricultural economy due to high mobility or morbidity of smaller units and also on account of births of new units, the scheme envisaged conducting the Economic Census periodically in order to update the frame from time to time.

Economic Census (EC) is the complete count of all entrepreneurial units located within the geographical boundaries of the country. The main aim of the Economic Census is to provide information on distribution of establishments and their entrepreneurial activities like location of establishment, description of activity of the establishment, nature of operations, type of ownership, power/fuel used, number of persons usually employed etc.

## 1.3 SIXTH ECONOMIC CENSUS IN GOA

The Sixth Economic Census was launched in Goa during July, 2013. It covered all the establishments/units engaged in production and / or distribution of goods and services located within the geographical boundaries of the State, excluding those engaged in Crop production, Plantation, Public Administration, Defence and Compulsory Social Security Services, scattered in 3166 enumeration blocks of the State. The primary field work was assigned to anganwadi workers under the supervision of statistical personnel of this Directorate. The primary field workers and supervisors were imparted extensive classroom training and practical field demonstrations. Enumeration Blocks (EBs) of Population Census 2011 were used for reference, both in rural and urban areas, so that results of the Sixth Economic Census can be synchronized with those of Census 2011. Further, Handicraft / Handloom establishments were identified separately for the first time.

The field work of the Sixth Economic Census in Goa was initiated in the 1st week of July 2013. The information was collected through two main schedules namely (i) Schedule 6A: Household and Establishment Listing Schedule and (ii) Schedule 6C: Directory of Establishment Schedule. The third schedule, namely Schedule 6B: Establishment Abstract was prepared based on the data contained in Schedule 6A.

Chapter II

# CONCEPTS AND DEFINITIONS

**2.1** The important concepts, definitions of certain terms used in the Sixth Economic Census are explained below:

## 2.1.1 Household

A household is a group of persons usually living together and taking their meals from a common kitchen. It includes temporary stay-away (those whose total period of absence from household is expected to be less than six months) but excludes temporary visitors and guests (with expected total stay of less than 6 months).

## 2.1.2 Census House

A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used, or recognized as a separate unit. It may be occupied or vacant. It may be used for residential, commercial or both purpose.

## 2.1.3 Establishment

The establishment is a unit situated in a single location in which predominantly one kind of economic activity is carried out such that at least a part of the goods and/or services produced by the unit goes for sale (i.e. entire produce is not for sole consumption).

## 2.1.4 Agricultural Establishment

Establishment engaged in production of agriculture goods **(other than crop production and plantation by the farmers or a group of famers or any agency),** agricultural services, hunting, trapping and game propagation, where at least some part of the production or services is sold out.

## 2.1.5 Non-Agricultural Establishment

Establishment engaged in activities other than agricultural activities (like crop production and plantation, growing of tea, coffee, rubber, tobacco etc.) defined herein above have been termed as Non-Agricultural Establishment.

## 2.1.6 Handloom / Handicraft Activity

Handicraft describes a craft or occupation requiring skilled use of hands. Handicrafts are items made by hand, often using simple tools. These items can be functional, artistic and/or traditional in nature.

### 2.1.7 Outside Household with Fixed Structure

Establishment owned by any member of the household and located outside the household with fixed structure. Examples are: Factory, Shops, Showroom, etc.

### 2.1.8 Outside Household without Fixed Structure

Establishment owned and run by self-employed member of the household which are outside the household and without fixed structure. Examples are: Selling vegetables on the road side, selling fish door to door, etc.

### 2.1.9 Inside Household

Establishment owned by member of the household and located inside the household such as stitching clothes, papad making, providing medical/legal advice, etc.

### 2.1.10 Directory Establishment

An establishment with hired worker employing 8 or more persons daily on a fairly regular basis is termed as Directory establishment.

### 2.1.11 Nature of Operation

If the activity of the Establishment is carried on throughout the year more or less regularly, it is treated as perennial activity and if the activity is confined to a particular season, the activity is called as seasonal (Non-perennial). Causal activity is carried out occasionally depending upon the availability of time and resources. Basically, it is for a very short period like 15 – 30 days.

### 2.1.12 Data Collection method and tools used

Three forms were canvassed in conducting the Economic Census viz.

i) House and Establishment Listing Schedule (6A)

ii) Directory of Establishment Schedule (6C)

iii) Establishment Abstract (6B)

**2.1.13** The first form 'House and Establishment Listing Schedule' (6A) was used for listing of all the households and all the establishment units in each of the Enumeration Blocks.

**2.1.14** The second form 'Directory of Establishment Schedule' (6C) was used for listing the establishment units data having 8 and above workers.

**2.1.15** The form 'Establishment Abstract Schedule'(6B) was used for abstracting the establishment data from Schedule 6A.

# HANDICRAFT/HANDLOOM ESTABLISHMENTS

During the Sixth Economic Census, the information on Handicraft & Handloom establishments was captured, since full proof data on handicraft & handloom establishments was not available. For strengthening any sector, database plays vital role. The purpose of including this item in the Economic Census was to assess the number of handicraft and handloom establishments in the country and persons employed therein, so that the handicraft and handloom clusters could be identified in respect of each State/UT for undertaking further surveys for development of Satellite accounts for assessing the contribution of this important sector.

Handicraft/Handloom defines a craft or occupation requiring skilled use of hands. Handicrafts are items made by hand, often using simple tools. These items can be functional, artistic and/ or traditional in nature. The need to enumerate crafts in the Sixth Economic Census is to understand and reflect the huge contribution artisan communities make to India's economy. Thus, to summarise, skill of worker and use of hand are two prerequisites for handicraft. It must be predominantly made by hand. It does not matter if some machinery is also used in the process. Handicrafts range from the very simple (diyas, kulhars) to the very complex (stone temples, enamel jewelry) work. Certain products like baskets, brooms, pots, diyas, mats and chiks could range from very simple to quite complex, but are traditionally considered as handicrafts even in their simplest forms. At the same time, certain handmade articles are not usually categorized as handicrafts. Activities involving human labour without skill are usually not included.

Two broad categories for exclusion comprised of the following activities:

- All food items like papads, pickles, etc which may be handmade.
- Items like bricks, bidis, agarbattis, match sticks, fire crackers etc. which are made by hand but not distinguished by distinctive skills.

For the purpose of Sixth Economic Census, the word handicraft includes handlooms, so all manner of hand weaving activities was considered under the same. Information was collected from each of the manufacturing unit where hand as well as skill is being used in the manufacturing activity.

CHAPTER VIII

# WOMEN ENTREPRENEURS

Empowering women to participate fully in economic life across all sections is essential to build stronger economic achieve agreed goals for development and sustainability and improve the quality of life for women and community as a whole. Women's equal access and control over economic and financial resources is critical for the achievement of gender equality and empowerment of women as well as equitable and sustainable economic growth and development.

Hitherto, in all Economic Census's, data on women entrepreneurs was not collected separately. As also, data available on various parameters like labour force, literacy, health aspects, etc. are being generated separately regularly through various censuses and surveys but data on women entrepreneurialship at national level is rather flimsy. Therefore, need was felt to collect data on women entrepreneurialship in proprietary ownership. It covers sex, religion, social group, economic activity, number of workers employed (hired and not hired) and source of finance.

It has been observed that 16656 establishments out of the total 96587 establishments were run by women entrepreneurs in Goa which is around 17.24 % of the total number of establishments. This percentage is on higher side as compared to All India percentage of 13.76%.

CHAPTER IX

# COMPARISON OF RESULTS OF ECONOMIC CENSUSES 2005 and 2013

The field work of Economic Census 2005 and Economic Census 2013 were carried out in the year 2005 and 2014 respectively. Comparison of EC 2005 and EC 2013 has been made on number of establishments and persons usually employed, by location, by establishment type and by selected characteristics. Public Administration, Defence and Compulsory Social Security activities were excluded from the Sixth Economic Census as the data is already available with the Government of these establishments. During the Sixth EC, two new components i.e. Women Entrepreneurs and Handloom/Handicraft were included.

## 9.1 GROWTH OF ESTABLISHMENTS AND EMPLOYMENT

The below mentioned table depicts the number of establishments and employment in last two economic censuses and inter-census growth rate of establishments in respect of rural, urban and combined over the period 2005-2013. It is seen that the overall compound annual growth rate (CAGR) of establishments per year during 2005-2013 was 3.63%. Growth rate per annum in urban areas (7.43%) was slightly more than the growth rate (-1.4%) observed in rural areas. The total growth in number of establishments during 2005-13 was 33.03%. In employment, overall CAGR of 3.96% was observed during 2005-13. During 2005-13, a CAGR of -2.3% was observed in rural areas. For urban areas, a CAGR of 8.13% was observed during 2005-13. The total growth in number of workers during 2005-2013 was 36.41%.

**Number of Establishments and Employment for Fifth EC and Sixth EC**

## 9.2 GROWTH RATES OF ESTABLISHMENTS AND EMPLOYMENT BETWEEN 2005 (FIFTH EC) AND 2013 (SIXTH EC).

It is seen from the above table combined growth of 33.03% and 36.41% between the Fifth and Sixth ECs in number of establishments and number of workers respectively. It shows a negative growth in establishments with -10.98 % in rural areas. Whereas, in urban areas it's a positive growth of 77.37%. This is mainly due to shifting of people from rural areas to urban areas.

There was positive growth of 86.83% in urban areas of the State. The main reason for positive growth could be due to movement of workers from rural areas to urban areas. Whereas, it is opposite trend in rural areas which recorded -17.15 % during the 2005 and 2013 EC. The overall growth rate during the 2005 and 2013 EC was 36.41 % in employment.

## 9.3 AGRICULTURAL ESTABLISHMENTS

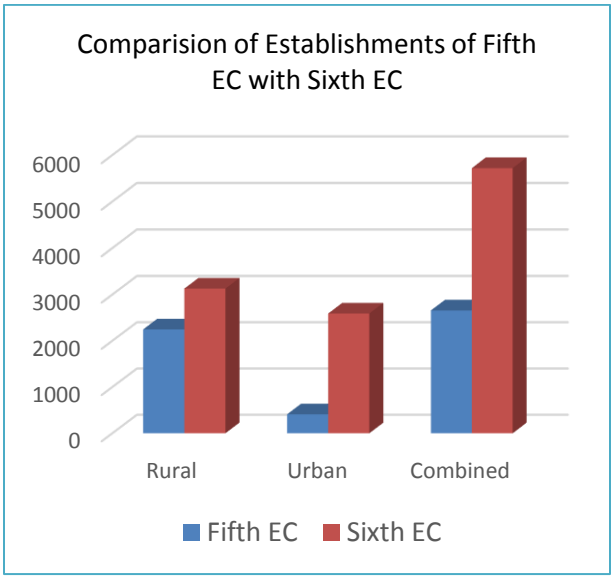

The following table gives the details of the agricultural establishments by rural urban break up. It is observed that share of agricultural establishments registered a continuous rising trend when data of Fifth EC is compared with Sixth EC. In rural areas, it shows a growth of 39.31 % and the CAGR 4.23 %. In urban areas, it shows a very high growth of 530.17 % with CAGR 25.87 %. The combined growth recorded at 115.24 % and CAGR at 10.06 % during 2005-2013 EC.

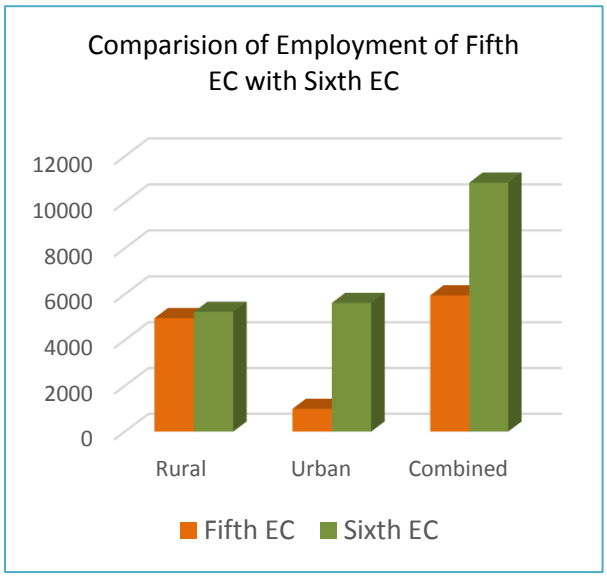

Agricultural employment also has seen a rise during 2005-13, especially in urban areas. In rural areas, it recorded growth of 5.53 % and CAGR 0.68 %. Likewise, in urban areas growth was 465.96 % and CAGR 24.19 %. The overall growth in agriculture sector was 82.40 % and CAGR 7.8 % during the 2005-2013 EC.

**Growth rate of Agricultural Establishments and employment therein by sector**

## 9.4 NON AGRICULTURAL ESTABLISHMENTS

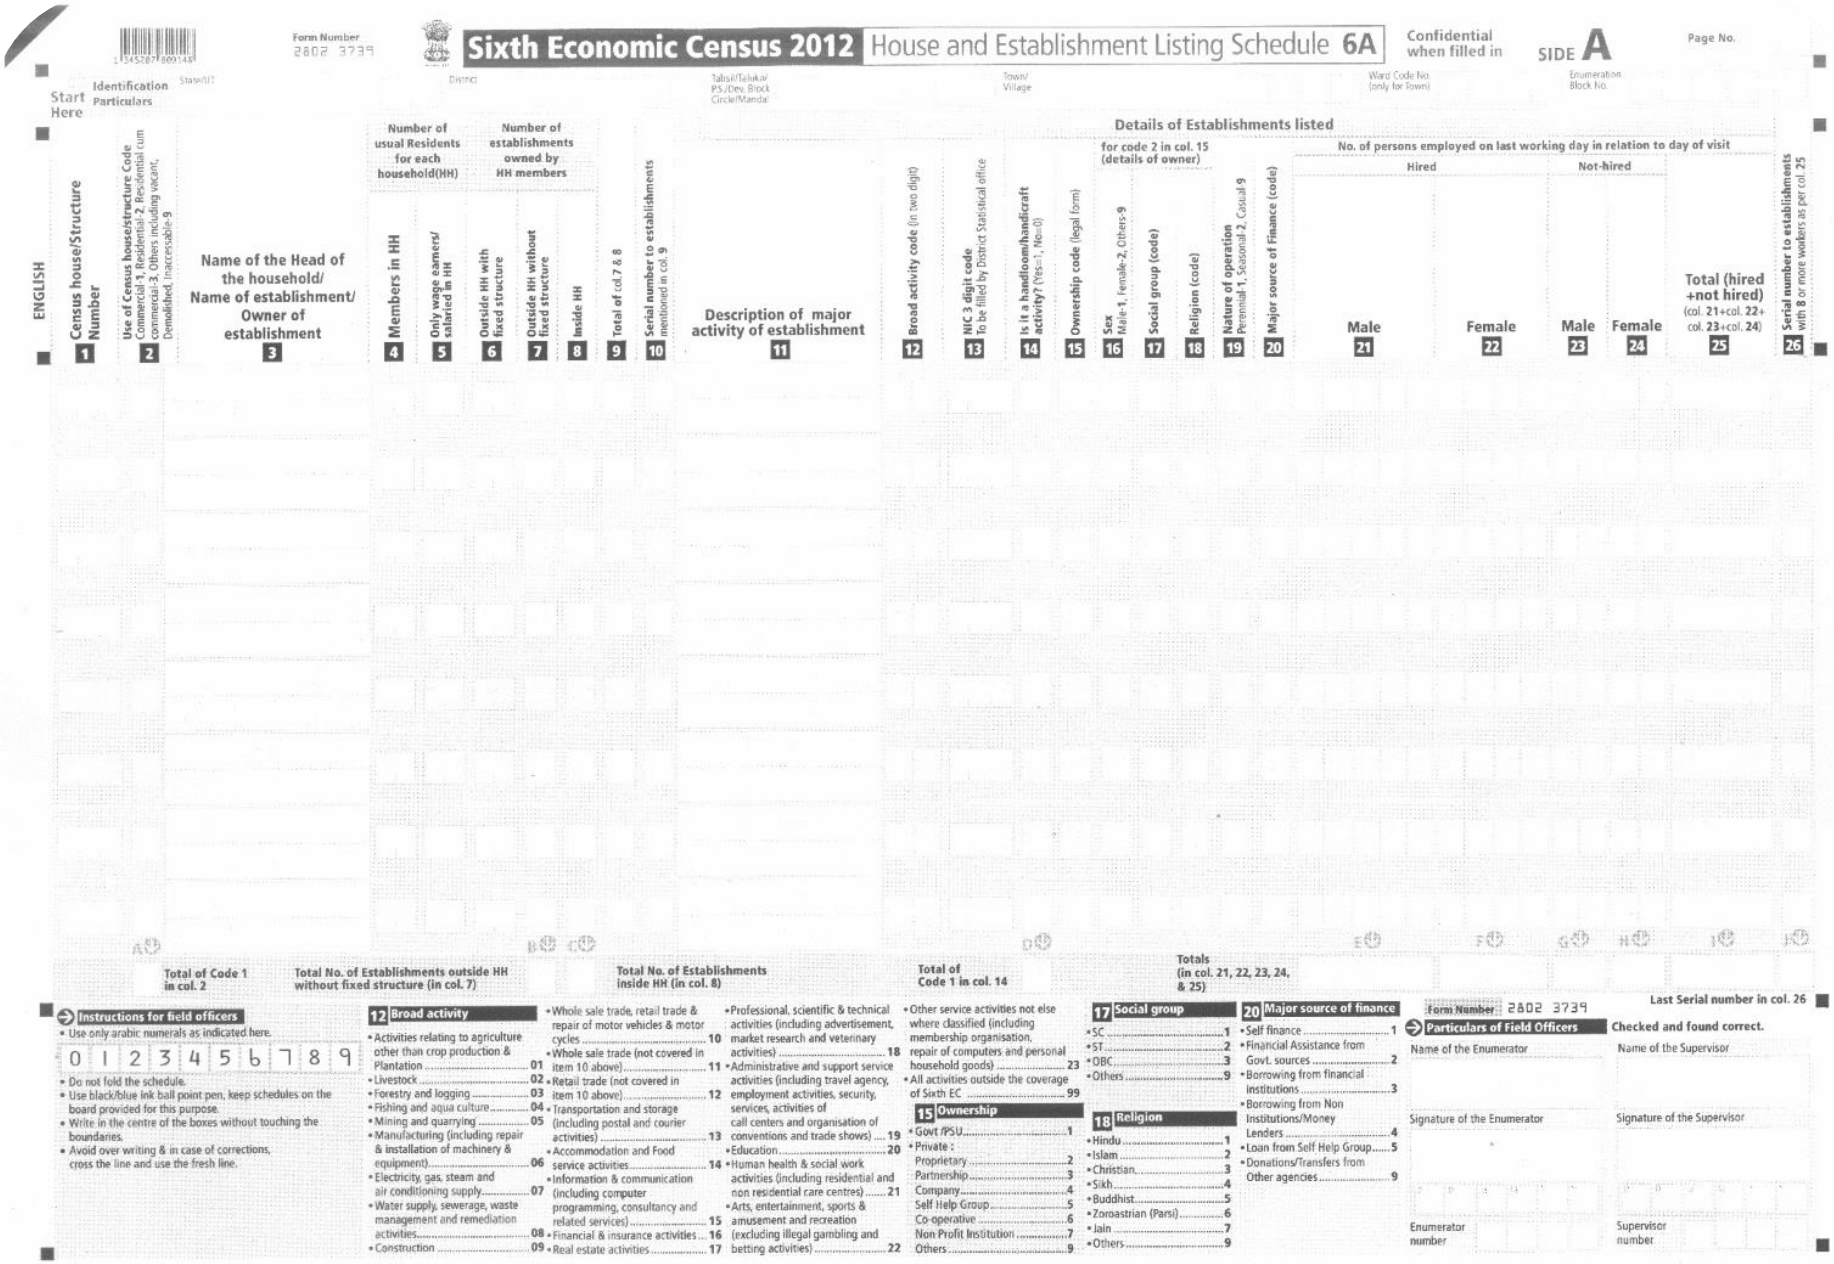

It is witnessed that non-agricultural establishments registered a continuous rising trend when data of Fifth EC is compared with Sixth EC. However, in rural areas it is completely adverse effect, as it shows negative growth of -14.29 %. In urban areas, it shows a very high growth of 72.17 % with CAGR 7.03 %. The combined growth of 29.91 % and CAGR of 3.32 % was recorded during 2005-2013 EC.

**Growth rate of Non - Agricultural Establishments and employment therein by sector**

| **Sector** | **Item** | **Fifth EC*** | **Sixth EC** | **CAGR (%)** | **Total Growth (%)** |
|---|---|---|---|---|---|
| *1* | *2* | *3* | *4* | *5* | *6* |
