ANNUAL SURVEY OF INDUSTRIES

2010-11

P R E F A C E

The **"Annual Survey of Industries**" (ASI) is the prime source of Industrial Statistics which provides the basic statistics of industrial sector. The frame of factories used for the survey corresponds to the list of factories registered under the Factories Act, 1948, as maintained by the Chief Inspector of Factories & Boilers, Government of Goa.

This **Report on Annual Survey of Industries** pertains to the year 2010-11, and is the 38th in the series. It is compiled based on the information collected by the National Sample Survey Organization (NSSO), Field Operations Division (FOD), Government of India, under the statutory provision of The Collection of Statistics Act, 1953, and the rules framed there under in 1959. The detailed tables presented in this report have been generated by the Central Statistical Organization (CSO), Kolkata. The report presents a broad picture of the pattern and growth of the organized industrial sector in Goa. It provides estimates of different variables of industrial statistics viz., capital structure, employment, input, output, and value added by manufacture, etc. by certain industry groups.

Constructive suggestions to improve the publication are always welcome.
