PREFACE

The impact of price movement not only affects the standard of living of the people but also has a significant bearing on project formulation and investment decisions. Government and Private organization or agencies too depend on price statistics for fixation of wages and various other allowances for its future planning.

The present publication on ñPrice Trendsò being twenty ninth in series, gives the trends in the movement of retail and wholesale prices for some of the essential commodities in Goa state during the year 2011 and also presents the yearly average prices from the year 2006 onwards. Based on the Index Numbers compiled by this Directorate for the Middle Class Non-Manual Employees with Old and Revised Base and those by the Labour Bureau, Shimla for Industrial Workers the General Index with Old Base (1966=100) and Revised Base (1982=100 & 2001=100), an analysis of the price trends has been attempted.

It is hoped that this publication will serve as a useful source for the price information needs of all concerned. While all efforts have been made to incorporate authentic price data in the publication, suggestions for further qualitative improvements in future are most welcome.

The generous co-operation extended by various individuals, shops, agencies, etc. in making available the requisite data is gratefully acknowledged. The staff of Price division deserves special mention as they have contributed immensely in terms of collection, compilation, computation and writing of report.
