(2) It extends to the whole of India.

(3) It shall come into force in a State on such date' as the Central Government may, by notification in the Official Gazette, appoint:

Provided that different dates may be appointed for different parts of a State.

2. **Definitions and interpretation-(1)** In this Act unless the context otherwise requires, -

(a) "birth" means live-birth or still-birth ;

(b) "death" means the permanent disappearance of all evidence of life at any time after live-birth has taken place

---

' See page 17 at the end of the Act.

(c) "foetal death"_ means absence of all evidence of life prior to the complete expulsion or extraction from its mother of a product of conception irrespective of the duration of pregnancy ;

(d) "live-birth" means the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life, and each product of such birth is considered live-born;

(e) "prescribed" means prescribed by rules made under this Act;

(f) "State Government", in relation to a Union territory, means the Administrator thereof:

(g) "Still-birth" means foetal death where a product of conception has attained at least the prescribed period of gestation.

(2) Any reference in this Act to any law which is not in force in any area shall, in relation to that area, be construed as a reference to the corresponding law, if any, in force in that area.

CHAPTER II

REGISTRATION-ESTABLISHMENT

3. **Registrar-General, India -** (1) The Central Government may, by notification in the Official Gazette, appoint a person to be known as the Registrar-General, India.

(2) The Central Government may also appoint such other officers with such designations as it thinks fit for the purpose of discharging, under the superintendence and direction of the Registrar General, such functions of the Registrar-General under this Act as he may, from time to time, authorise them to discharge.

(3) The Registrar-General may issue general directions regarding registration of births and deaths in the territories to which this Act extends, and shall take steps to co-ordinate and unify the activities of Chief Registrars in the matter of registration of births and deaths and submit to the Central Government an annual report on the working of this Act in the said territories.

4. Chief Registrar- (1) The State Government may, by notification in the Official Gazette, appoint a Chief Registrar for the State.

(2) The State Government may also appoint such other officers with such designations as it thinks fit for the purpose of discharging, under the superintendence and direction of the Chief Registrar, such of his functions as he may, from time to time, authorise them to discharge.

(3) The Chief Registrar shall be the chief executive authority in the State for carrying into execution the provisions of this Act and the rules and orders made thereunder subject to the directions, if any, given by the State Government.

(4) The Chief Registrar shall take steps, by the issue of suitable instructions or otherwise, to coordinate, unify and supervise the work of registration in the State for securing an efficient system of registration and shall prepare and submit to the

State Government, in such manner and at such intervals as may be prescribed, a report on the working of this Act in the State alongwith the statistical report referred to in sub-section (2) of section 19.

5. **Registration divisions** - The State Government may, by notification in the Official Gazette, divide the territory within the State into such registration divisions as it may think fit and prescribe different rules for different registration divisions.

6. **District Registrar-** (1) The State Government may appoint a District Registrar for each revenue district and such number of Additional District Registrars as it thinks fit who shall, subject to the general control and direction of the District Registrar, discharge such functions of the District Registrar as the District Registrar may, from time to time, authorise them to discharge.

(2) The District Registrar shall superintend, subject to the direction of the Chief Registrar, the Registration of births and deaths in the district and shall be responsible for carrying into execution in the district the provisions of this Act and the orders of the Chief Registrar issued from time to time for the purposes of this Act.

7. **Registrars-** (1) The State Government may appoint a Registrar for each local area comprising the area within the jurisdiction of a municipality, panchayat or other local authority or any other area or a combination of any two or more of them:

Provided that the State Government may appoint in the case of a municipality, panchayat or other local authority, any officer or other employee thereof as a Registrar.

(2) Every Registrar shall, without fee or reward, enter in the register maintained for the purpose all information given to him under section 8 or section •9 and shall also take steps to inform himself carefully of every birth and of every death which takes place in his jurisdiction and to ascertain and register the particulars required to be registered.

(3) Every Registrar shall have an office in the local area for which he is appointed.

(4) Every Registrar shall attend his office for the purpose of registering births and deaths on such days and at such hours as the Chief Registrar may direct and shall cause to be placed in some conspicuous place on or near the outer door of the office of the Registrar a board bearing, in the local language, his name with the addition of Registrar of Births and Deaths for the local area for which he is appointed, and the days and hours of his attendance.

(5) The Registrar may; with the prior approval of the Chief Registrar, appoint Sub-Registrars and assign to them any or all of his powers and duties in relation to specified areas within his jurisdiction.

CHAPTER III

MEDICAL CERTIFICATE OF CAUSE OF DEATH

Directions for completing the form

Name of deceased: To be given in full. Do not use initials. If deceased is an infant, not yet named at time of death, write, `Son of (S/o) or 'Daughter of (D/o), followed by names of mother and father.

Age: If the deceased was over 1 year of age, give age in completed years, if the deceased was below 1 year of age, give age in months and if below 1 month give age in completed number of days. and if below one day, in hours.

Cause of Death: This part of the form should always be completed by the attending physician personally.

The certificate of cause of death is divided into two parts, I and II. Part I is again divided into three parts, lines (a) (b) (c). If a single morbid condition completely explains the deaths, then this will be written on line (a) of Part I, and nothing more need be written in the rest of Part I or in Part II, or example, smallpox, lobar pneumonia, cardiac beriberi, are sufficient cause of death and usually nothing more is needed.

Often, however, a number of morbid conditions will have been present at death, and the doctor must then complete the certificate in the proper manner so that the correct underlying cause will be tabulated. First, enter in Part I (a) the immediate cause of death. This does not mean the mode of dying. e. g., heart failure, respiratory failure, etc. These three terms should not appear on the certificate at all since they are modes of dying and not causes of death. Next consider whether the immediate cause is a complication or delayed result of some other cause. If so, enter the antecedent cause in Part I, line (b). Sometimes there will stages in the course of events leading to death. If so, line (c) will he completed. The underlying cause to be tabulated is always written last in Part I.

Morbid conditions or injuries may be present which were not directly related to the train of events causing death but which contributed in some way to the fatal outcome. Sometimes the doctor finds it difficult to decide, especially for infant deaths, which of several independent conditions was the primary cause of death; but only one cause can be tabulated, so the doctor must decide. If the other diseases are not effects of the underlying cause, they are entered in Part II.

Do not write two or more conditions on a single line. Please write the names of the diseases (in full) in the certificates as legibly as possible to avoid the risk of their being misread.

Onset: Complete the column for interval between onset and death whenever possible, even if very approximately, e. g.. "from birth" "several years".

Accidental or violent deaths : Both the external cause and the nature of the injury are needed and should be stated. The doctor or hospital should always be able to describe the injury, stating the part of the body injured, and should give the external cause in full when this is shown. example: (a) Hypostatic pneumonia: (b) Fracture of neck or femur, (c) Fall from ladder at home.

Maternal deaths : Be sure to answer the questions on pregnancy and delivery. This information is needed for all women of child-bearing age, even though the pregnancy may have had nothing to do with the death.

Old age or senility : Old age (or senility) should be not given as a cause of death if a more specific cause is known. If old age was a contributory factor. it should be entered in Part II. Example : (a) Chronic bronchitis, II old age.

Completeness of information : A complete case history is not wanted, but, if the information is available, enough details should be given to enable the underlying cause to be properly classified.

Example : Anaemia - Give type of anaemia, if' known. Neoplasms - Indicate whether benign or malignant, and site, with site of primary neoplasm, whenever possible. Heart disease - Describe the condition specifically; if congestive heart failure, chronic on pulmonale, etc.. are mentioned, give the antecedent conditions. Tetanus - Describe the antecedent injury, if known. Operation - State the condition for which the operation was performed. Dysentry - Specify whether bacillary, amoebic, etc., if known. Complications of pregnancy or delivery - Describe the complication specifically Tuberculosis -Give organs affected.

Symptomatic statement : Convulsions, diarrhoea. fever, ascites, jaundice. debility etc.. are symptoms which may be due to any one of a number of different conditions. Sometimes nothing more is known, but whenever possible, give the disease which caused the symptom.

Manner of Deaths : Deaths not due to external cause should be identified as ‘Natural’. If the cause of death is known, but it is not known whether it was the result of an accident, suicide or homicide and is subject to further investigation, the cause of death should invariably be filled in and the manner of death should be shown as ‘pending investigation’.
