INTRODUCTION

The Directorate of Planning, Statistics & Evaluation has been conducting the Census of Employees working in Government Departments, Grant-in-Aid Institutions and State Public Sector Undertakings and bringing out report at regular intervals. The last report brought out contained data as on 31st March, 2004. The present report, twenty-third in the series, presents data as on 31st March, 2005. However, the relevant details have already been uploaded on the Government Web-site.

Government Departments as reflected in the Budget Document "Demand for Grants" have been taken as frame for this Census. As per budget document, there are 83 Demands during 2004-05 including three Demands for charged expenditure Viz. Raj Bhavan, Debt Services and Goa Public Service Commission. Out of these, 7 Demands Viz. Debt Services, Home, Estate Office, Evacue Property, Law, Finance and Revenue do not have provision for salaries. However, employees working in these seven Departments have been covered in other Departments from where they are actually drawing their salaries. The information relating to Directorate of sports has been included in the Department of Sports and Youth Affairs.

The information from 76 Government Departments, 13 Public Sector undertakings and 16 Grant-in Aid institutions has been collected for the purpose of this report. Also, information with regard to Municipalities has been collected first time during this year. The employees are classified as Regular, Adhoc and Work-Charge. In case of Government Departments, while the regular and adhoc employees are paid salaries under the budget head "01 Salaries," the work charge employees get salaries either under the budget, "61-Major Works", or "60-Minor Works" or "23-Maintainance Works". In case of Grant-in-Aid institutions, generally the Government releases salary grants to such institutions under the budget head: "74-Grant-in-Aid". However, there are few grant-in-aid institutions like Planning and Development Authorities which pay salaries to their employees from their own funds. The State Public Sector Undertakings normally do not receive grant from the Government. In addition to this, the information on those who were working on contract, NMRs, part time lecturers has also been collected and presented separately. The data presented is as per the information submitted by the respective Departments. The information in resect of

School Education in both Government as well as Grant in Aid for the year 2004 has been repeated due to non availability of updated data.

Thus, it is to be noted that in case of employees working in Government Department the salary is disbursed to the individual employees by the respective Department whereas in case of employees working in grant-in-aid institutions by the respective Grant-in-Aid Institution. For instance, the School Education Department has two categories viz. employees receiving salary directly from the School Education Department and employees receiving salary from Education Institutions like aided schools.

The number of employees in different Government Departments, Grant-in-Aid Institutions and State Public Sector as also Undertakings as also their distribution under different pay scales, social groups etc. are given in different tables in this report.

The data for STs for the year 2005 includes three new communities viz Kunbi, Gawda and Velip notified as Scheduled Tribes in the State as per the SC & STs Order Amendment Act (2002) published in the Gazette of India; dated 8th January 2003 Extra Ordinary (Part-II).

The data for the year 2005 also includes additional information viz. group distribution of employees in A, B, C and D categories and number of employees in OBC category. It also covers age distribution i.e age between 50-55 and above 55 years.
