CHAPTER 8

Social Services

1. EDUCATION

A. SCHOOL EDUCATION

In the present system of education it is necessary to identify and fill up the gaps through upgradation of the standards of education so that each school should emerge as a centre of excellence catering to the all round development of each child into a self reliant and confident individual striving for excellence. The measures which are being contemplated to achieve the above are as follows :

- Development of infrastructure in schools.
- Revision/reforms of curriculum, text books etc.
- Expansion of scholarship schemes.
- Regular in-service training of teachers including heads of institutions.
- Intensive use of ICT and its infrastructure.
- Developing an index for quality education.
- Emphasis on environment education.
- Emphasis on value and need based education.
- Improved school performance by accreditation.

Achievements

- Under Infrastructure development loan scheme, GSIDC has completed the construction/extension of two schools viz. GHS, Bhuipal and GPS, Pissulem. The taking over of these two buildings is underway and the construction work of GHS Thane is nearing completion.
- The State Council of Education Research & Training (SCERT) is mainly concerned with curriculum and textual development (Std. I-VII) and in-service training of teachers. The SCERT has been actively working on a variety of activities for creating and nurturing interest in Science and Mathematics among teachers and students. These activities include organizing science fairs and exhibitions, seminars, National Science Day, State level & National Talent Search Examination etc. Scholarship Examinations like State level National Talent Search Examination, National Talent Search Examination and Incentive Scholarship

Examination are conducted.

- District Institute of Education & Training (DIET) is conducting a two year diploma course in English as well as in Marathi medium with an intake of 50 teacher trainees in each division. Pre-service/in-service courses are also conducted. DIET received an outstanding merit achievement viz. "State Teachers Award" for the year 2007.
- Under Information and Communication Technology @ school system (ICT), the department has formulated the Computer Education Plan (CEP) 2005-09. The Government of India, MHRD has approved the release of Central share of Rs.1.00 lakh per school per year for 432 schools in the State. The grants for the financial year 2006-07 and 2007-08 have already been released.
- In order to ensure quality education at all levels, Government of Goa has launched many new and innovative initiatives in all the schools in the State. Carrier guidance and counseling, environmental education, adult education, non formal education etc. have been introduced in the schools. It is also proposed to develop an index of quality education.
- The Sarva Shiksha Abhiyan (SSA) programme is an attempt to provide an opportunity for improving human capability of all children through provision of community owned quality education in a mission mode. It also aims to provide useful and elementary education for all children in the age group 6-14 by the year 2010. Under the scheme, grants are provided for setting up of schools/alternate schools, salaries of teachers, teachers training, innovative activities, cluster and block resource centres, research, monitoring and evaluation etc.
- Under the Goa Cyberage Student Scheme/EDUNET-1, every year about 11,000 students of std XI of Science, Commerce, Arts and Vocational streams have been provided with computers.
- In order to improve the educational status of the children with special needs, financial assistance was provided to 46 schools. 1152 beneficiaries were assisted and the amount spent was Rs.28.00 lakh upto November 2007.
- Under the scheme assistance for adoption of Government Primary and Middle schools, 44 Government Primary/Middle schools have been given on adoption to the management of aided institutions.
- Grants are provided to NGOs/Village Panchayats/Municipalities to run village/taluka libraries. Grant-in-aid has been sanctioned to 71 libraries amounting to Rs.67.00 lakh and so far an amount of Rs.50.81 lakh has been released. The work of construction of building for Central library at Patto, Panaji and building for library at Margao is in progress. The 175th Anniversary of Central Library was celebrated on 4th November 2007 with the release of special cover. 10 library professionals including retired curators and retired

librarians were honoured on the occasion.

- Under the scheme Bharat Yatra, 487 students and 32 teachers of 14 Secondary and Higher Secondary Schools have been benefited.
- The State has a network of 17 Bal Bhavan Kendras and 2 sub centres. Grants of Rs.103.57 lakh has been provided to Bal Bhavan upto November 2007.
- Under the Mid Day Meal Scheme, about 75,735 students from 1,119 primary schools in all the 11 talukas in the State of Goa are provided the mid day meal.
- Under Vocational Education, at present, 40 Higher Secondary Schools in Goa are imparting 15 vocational courses in different trades.

B. HIGHER EDUCATION

- The Directorate of Higher Education has provided Rs.10.00 crore in the Revised Estimates for the year 2007-08 for procurement of Computers under Cyberage Students Scheme to the Left-out Students.
- Under the Goa Scholar Scheme 2007-08, the Government have selected five meritorious students (3 National and 2 International scholarships) and will be awarded to the said scholars in due course of time.
- In all, 10 Colleges were covered under the scheme Infrastructure Development Scheme for Higher Education and an amount of Rs. 235.00 lakh was disbursed as 50% of the loan sanctioned. Applications from 07 Colleges for the second installments are processed and a sum of Rs. 157.50 lakh was disbursed in the financial year 2006-07.
- An amount of Rs. 14.00 lakh has been sanctioned to the Government Colleges under UGC Curriculum and a provision has been made in Supplementary Budget 2007-08.
- An amount of Rs. 67.00 lakh has been provided to Goa University in the Revised Estimate for the year 2007-08 for Post Graduate Diploma in Computer Education and Training (PGDCET).
- The interest free education loan scheme is implemented by the Goa Education Development Corporation from the year 2005-06 onwards. The scheme provides loan to the needy students who are deprived of further studies due to financial constraints. The loan is disbursed to take up the study within the country as well as abroad. During the year 2005-06 and 2006-07, 979 and 784 beneficiaries respectively have been assisted. An amount of Rs. 4.22 crore and Rs. 3.33 crore respectively was disbursed to these beneficiaries.
- The Goa Education Development Corporation provides interest free loan to the tune of Rs.40,000/- to teachers for the purchase of Laptops. An amount of Rs.25.00 crore will be provided for the purpose.

C. TECHNICAL EDUCATION

- From the academic year 2006-07, the Board of Technical Examination re-introduced the semester system of Examination for all the polytechnics in Goa replacing the Multipoint Entry Exit and Credit System (MPEECS) of examination, which was in force since 1998. The MPEECS system was changed since the performance of the students under MPEECS was not satisfactory considering the fact that the passout percentages were significantly lower under MPEECS as compared to the previous years under semester system. Since 2006, the semester system is successfully implemented in all polytechnics.
- For the first time, CET for admissions to Diploma and B.Sc. Degree holders to Direct Second year Professional Degree Courses in Engineering and Pharmacy was successfully conducted without any external organization involvement thereby resulting in expenditure saving.
- Implementing new schemes providing tuition fee waiver for 80 candidates comprising of women, the economically weaker sections and the physically handicapped admitted to Professional Degree Courses, thereby enabling additional 10% admission intake of candidates to Engineering and Pharmacy Degree Courses.
- Government has decided to implement the Vth Pay AICTE scales to all Professional Degree Colleges in Engineering, Pharmacy, Architecture and all the five Polytechnics in Goa. Most of the teachers of the three Professional Degree Courses have been granted the scales.
- Review of the staff structure of Government Polytechnic, Curchorem and Government Polytechnic, Bicholim is undertaken. Revisions of Recruitment rules for the post of Lecturers and Heads of Department as per the recommendation of the All India Council of Technical Education, has been undertaken.
- Successfully conducted GCET and admissions to Professional Degree Courses in Engineering, Medicine, Dentistry, Architecture, Pharmacy and Homeopathy as well as Diploma Level admissions in various Institutions in the State. Approval for starting of new Diploma Courses in Computer Engineering, Electronics and Instrumentation has been obtained. Granted extension in approval to Diploma level courses in institutions for 3-year period. New professional Degree Courses in Pharmacy was approved and centralized. Admission conducted thereby providing greater opportunities for local students to acquire skill and consequent employment in emerging areas.
- New Post Graduate Degree in Engineering i.e. Microelectronics approved at Goa Engineering College, thereby making available highly skilled professionals to IT sector in the State.
- Established connectivity to Net Server

networked the computer of the offices in DTE. Established 2 MBPS teased Line connectivity to DTE office. Computer training for staff. Procurement of centralized UPSs to create the needs of DTE office. Updating of DTE website. Publication of RTI Manual and updating on website. As per the directives of the Hon'ble Court, a fee structure for Goa Institute of Management will be fixed.

New initiatives

- The Board has started the work of computerizing of the Examination system under the newly introduced semester system.
- Various procedures relating to admissions such as submission and scrutinizing of forms, issue of admission cards, declaration of results, preparing merit list, smooth conduct of admission rounds have been simplified.
- A Management Council for Goa College of Pharmacy mooted.
- A Centralized Selection Committee under Chairmanship of the Director, Directorate of Technical Education for recruitment of all contract Lecturers for the five polytechnics to ensure consistency in selection and availability of teachers at the start of academic years has been formed.

Achievements

- Grant of Career Advancement Scheme to almost 200 Lecturers of 5 Polytechnics in a short span of 6 months. Extension of CCS Conduct Rules to Aided Polytechnics of Goa as an interim measure.
- Renovation of all laboratories at Goa College of Pharmacy and some of Goa College of Engineering. Appointment of full time Principal on contract basis at Goa College of Architecture. Acquired 18400m^2 of land at Dona Paula for construction of new building for Goa College of Architecture. New Recruitment Rules of Goa College of Architecture framed and published.
- Goa College of Engineering has been ranked amongst the top 100 Institutes in the Country.

i) Polytecnic Mayem, Bicholim

The Polytechnic at Bicholim offers Diploma Courses in Civil, Mining, Mechanical, Electronics & Computer Engineering. A new course in Diploma in Electrical Engineering is introduced with an intake capacity of 30 students. Approval of new Buildings for Electrical and Electronics Department has been obtained and necessary allocation has been made. The Revenue is generated through various jobs undertaken in Workshop Section of the Civil Department. As per RTI Act, 2005, 17 point Manual has been prepared and the same has been uploaded on the RTI web site. Equipment has been purchased for laboratory of newly started Electrical Engineering Department. Internet Revenue Generation material testing is undertaken in Civil Department and

jobs are done in Workshop Section.

ii) Government Polytechnic, Curchorem

The Government Polytechnic, Curchorem was started in the year 1996 with the main objective of imparting technical education to the students mainly of backward talukas i.e. Sanguem & Quepem. At the beginning, the Polytechnic was started in irrigation sheds of CADA Complex at Amona, Quepem but now it is functioning in an area of 85,000 sq.mts of which 2500 sq.mts is presently occupied by Administrative Block, classrooms, laboratories and workshop. The work of land development, internal roads, water sump and overhead tank etc. has already been completed. Government Polytechnic Curchorem offers Diploma Courses in Mechanical, Electrical Engineering/ Electronics and Computer Engineering. The main aim is to make the Polytechnic a center of Excellence in the Technical field. The Polytechnic has the approval of AICTE for running diploma courses with an intake capacity of 40 students. Under the Community Polytechnic Schemes (CSS), activities like Socio Economic Technological Survey, Transfer of Technology, Technical Support Services, Community Service & Information dissemination in the villages of six constituencies i.e. Curchorem, Sanvordem, Quepem, Shiroda, Madkai & Sanguem have been undertaken.

iii) Government Polytechnic, Panaji

The Polytechnic at Panaji offers diploma courses in Civil, Mechanical, Electrical Engineering, Industrial Electronics, Fabrication Technology, Erection Engineering, Food Technology, Instrumentation and Control, Modern Office Practice, Security & Investigation and Garment Technology. The process is underway to accredit four departments viz. Mechanical, Electrical, Civil and Electronics as per norms of AICTE. The Institute is working on the modalities from ISO Certification and NBA accreditation and 2 Officers have been identified and designated as Public Information Officer and Assistant Public Information Officer. With the grants received from the Ministry of Food Processing Industries, equipment and machinery have been procured to upgrade the laboratories of Food Technology department and to develop food processing industry. Various infrastructure works viz. renovation of M&S lab, survey lab, soil lab and template yard have been executed. Renovation of Principal's cabin, T&P section, exam section and HoD (Electrical) is under process. The work of water proofing is also under process. Diploma in Computer Engineering is a new course introduced during the year.

The Library has been updated which includes regular books, book bank books and books of general reading. A new collection of books for personality development has been added. Staff members are deputed for Master Degree Programmes. Also on a continual basis, staff is being deputed for short-term training courses offered by NITTR, Extension

Center at Porvorim and ISTE, AICTE etc outside the State. The existing buildings are being renovated and the Laboratories of Food Technology, Electronics Engineering, Computer centre etc are being upgraded. Diploma programmes for which intake is on decline will be revamped in terms of infrastructure, curriculum revision and employability of students.

iv) GOA COLLEGE OF PHARMACY

- The renovation of college has been completed during the year 2007-08. Laboratories have been set up and sophisticated instruments have been acquired.
- The syllabus of the B. Pharm. course is being revised in accordance with the guidelines provided by the All India Council of Technical Education (AICTE) as per need of the day in the field of Pharmacy. The same will be placed before the Goa University for approval and implementation.
- Goa College of Pharmacy has acquired Broad Band and Sci-Finder Scholar for the use of the research students.
- Campus interviews were conducted and 100% placement was made available for pharma industries.
- The college has acquired 100% results in B.Pharm. (Science) and M.Pharm, 79% in D.Pharm. and students have also secured distinction & first class grades.
- 27 students passed GATE examination.

v) GOA COLLEGE OF ENGINEERING, FARMAGUDI

The Goa College of Engineering is the oldest Technical Institute in the State. Since the inception in 1967, the college has strived to produce excellent engineering professionals. Now with the modern trend in technology, there is a need to seek further expansion of the academic & infrastructure facilities in the college for which various programmes are being implemented.

It is proposed to start new undergraduate programme in new areas of technology such as Instrumentation and Bio Medical Engineering and also post graduate programme in Computer Science and Micro Electronics. Introduction of ME course in Micro Electronics is already approved by AICTE. It is also proposed to start part time degree course for diploma holders. During the year 2007-08, the total students intake increased to 406. With the increase in student strength and plans of expansion, additional senior faculty recruitment and increase in the strength of faculty has become imperative. It is, therefore, proposed to create some more posts of teaching faculty to commensurate with the AICTE.

Achievements

- Government has approved the proposal of one time complete renovation/rehabilitation of existing facilities and construction of new building at a cost of Rs.37.00 crore.
- The construction of IT Block, Renovation

of Boys Hostel III, Construction of Girls Hostel and Construction of Annex building to ETC Block executed during 2007-08 are expected to be completed in the year 2008-09.

- Due to starting of more electives and increased intake, more equipments are required in the existing laboratories. It is proposed to set up new language laboratory as per the recommendation of the Accreditation Committee and also to replace unserviceable machinery.
- The campus recruitment continues to be the best in the year 2007-08 and also around 80-90% of the graduated students in various streams got placement.
- Proposal for condemnation and replacement of 4 new buses has been approved by the Government. During the year 2007-08, one new bus has been procured as replacement to condemned bus.
- National Board of Accreditation Team visited Goa College of Engineering, Farmagudi, Ponda as a part of Accreditation process. Three departments, Civil, Mechanical and Electronic & Tele-Communication were accredited upto 2009.
- The Government of India has identified Information Security as a thrust area and proposed to initiate a project entitled "Information Security Education and Awareness" in the Country based on the recommendation of the inter-ministerial working group. The Department of Information Technology under the Ministry of Communications and Information Technology has been entrusted with the task of implementing this project.
- The technical educational Institutions within the Country are divided in two categories Resources Centre (RC) and Participating Institutions (PI). The Goa College of Engineering, Farmagudi has been categorized as an Institution which also includes NITs and RECs.
- As a participating Institution the Goa College of Engineering, Farmagudi will get a grant of Rs. 60-70 lakh for the next five years to develop modernized Information Security & Networks Project Laboratory.
- The College has already placed the order for books related to Information Security worth nearly Rs.2.00 lakh. The certificate courses will be offered to Graduate/Diploma Holders with significant backgrounds in computer and software applications.
- The construction of shopping complex worth Rs. 40.00 lakh within the campus has been completed and the same is already open to the campus residents and students. The complex is to house a restaurant, provision shop, bank counter, postal counter, cyber cafe, hair cutting saloon and laundry. A Nescafe stall has started functioning.
- Construction for Information Technology Department in an area of 3200 sq. mtrs with an estimated cost of Rs. 52.27 lakh is in progress.

vi) GOA COLLEGE OF ART

The Institution provided the necessary infrastructure in order to assist academic staff in carrying out the academic programme including conducting workshops in Portraitures, Animation and various other subjects. Issues like updating of studios like Mural studio, canteen, re-construction of compound wall and computerization of academic section; Art Gallery, Auditorium, Gymkhana, Audio Visual studio; water proofing of college building and providing platforms & water supply to mural studio which are part of the third phase are presently underway. The work of providing flooring, railing and interlocking pavers around the basket ball court is in progress. Computer systems worth Rs.4.23 lakh were purchased in order to update the computer lab.

The College has participated in various seminars, exhibitions and group shows, at both State as well as National level, and won several awards for the same. Government assignments such as the design, display and presentation of State Level Seminars were also undertaken.

vii) GOA COLLEGE OF ARCHITECTURE

- Auto CAD software on Building design costing Rs.6.91 lakh has been purchased to provide building design facilities to the students.
- A two day workshop on Mud Architecture was held in the college which was conducted by Mr. Salprem Maini of Auroville. Many practicing architects from Goa also participated in this workshop.
- The Silver Jubilee celebration of the college was held between 15th & 18th November 2007 to commemorate 25 years of its contribution towards architectural education in Goa. This consisted of an exhibition of past and present students, seminars, lectures and panel discussion on several topics of relevance to architecture in Goa.
- An academic exchange programme in the form of a joint 2-week workshop is being planned between the college and a design Institute in Portugal during the year 2007-08, in which two faculty members from the college along with some students will participate.
- The P.W.D. has been requested to provide fencing to the land allotted by the Government at Dona-Paula for construction of new building for Goa College of Architecture. The process of designing the proposed building is in progress.

2. HEALTH SERVICES

There has been a remarkable improvement in the health sector in Goa mainly due to the socio-economic development, wider provision of safe water, sanitation facilities, personal hygiene and establishment of health infrastructure coupled with implementation of various national programmes on Health & Family Welfare.

The District Hospitals have been given

special emphasis to expedite the construction process to ensure that state-of-the-art facilities are made available to the people at the earliest. The construction of District Hospital (230 bedded) at Mapusa is likely to be completed by end of March 2008 and the supply and installation of the medical equipments, etc. would be made by the end of April 2008 since the medical equipments require hygienic and dust free atmosphere with air conditioning facilities.

Construction of a new District Hospital (Hospicio Hospital) in South Goa at Margao is entrusted to the Goa State Infrastructure Development Corporation Ltd. The total cost of the project is approximately Rs. 8000.00 lakh.

The construction work of I.D. Hospital, Ponda is in progress and 22% work has been completed. The stipulated date of completion is 1st April 2009.

The proposal for upgradation of Primary Health Center, Quepem to 12 bedded hospital and upgradation of Primary Health Center, Sanquelim to Community Health Center is under consideration of the Government.

In order to make health facilities available at the very door step of the people, Mobile clinic equipped with X-ray machine, Patho. Lab., E.C.G. Machine and other basic facilities has been acquired and made operational during December 2007.

In order to keep the medical records systematically, it is proposed to undertake complete computerization of all the hospitals including CHCs and PHCs with beds and all hospitals under the Directorate of Health Services.

a. Mediclaim Scheme

The number of cases under Mediclaim have increased from 1395 in 2004-05 to 1407 in 2007-08 (upto December 2007). Besides, 92 cases were settled after getting necessary relaxation from the Government. The limit for financial assistance in cases of Open Heart Surgery, Kidney Transplant, Cancer and Neuro Surgery has been enhanced to Rs.3.00 lakh including post operative care, while the limit of financial assistance for cancer patients is enhanced to Rs. 5.00 lakh and for Bone Marrow cancer/diseases to Rs. 8.00 lakh. Now, the scheme is also available to people with 15 years residency in Goa.

Similarly, an amount of Rs.23.53 lakh has been incurred on State Illness Assistance Society during the year 2006-07 and 43 patients were referred under the Scheme. This Scheme is meant for the persons living below poverty line.

The number of beneficiaries benefited and the amount spent on Mediclaim scheme during the last 3 years is given in table No.8.1.

Table 8.1 : No of Beneficiaries under Mediclaim Scheme

Year	Number of Beneficiaries	Relaxation cases	Amount spent (Rs. in crore)
2005-06	1564	182	13.97
2006-07	1475	159	15.61
2007-08 (up to Dec. 2007)	1407	92	7.75

b. Family Welfare Programmes

In order to check female foeticide the 'Pre-Natal-Diagnostic Techniques' (PNDT) Act, 1994 came into operation from 1st January 1996. The State Government is enforcing the Act strictly and steps are taken to register all Diagnostic Centres/Clinics functioning in Goa. As on date, there are 117 Ultrasonography Clinics and 94 Medical Termination of Pregnancy Centers registered in the State of Goa. As a result of efforts by the Government, the State is now experiencing an all time low maternal mortality rate at an average of 5 to 7 deaths per annum during the last 5 years.

The infant mortality rate has been showing continuous decline over the years. This can be attributed to high percentage (95%) of Institutional deliveries, thereby ensuring essential maternal and new born care during pregnancy and child birth, proper management of maternal complications & Obstetric emergencies.

The Pulse Polio Immunisation Programme is conducted in the State ever since 1995 with a sole objective to eradicate polio from this Country and every child under 5 years is given a polio vaccine dose. The first pulse polio drive during the year 2007-08 was undertaken on 6-1-2008.

i) Family Planning

IEC activities are strengthened and promotion of various contraceptive methods for spacing as well as permanent sterilizations are undertaken. Sterilisation services are held every week at PHC, Bicholim & CHC, Valpoi on Wednesday and at CHC, Pernem on Monday. Laparoscopic camps are held on Wednesday at Curchorem, on every 3rd Thursday of the month at PHC, Bicholim and every Friday at Asilo Hospital, Mapusa. Camps are also held at Hospicio Hospital, Margao, Cottage Hospital, Chicalim and CHC, Ponda. Surgeons are available to conduct NSV at CHC, Ponda, Asilo Hospital, Mapusa and Hospicio Hospital, Margao on specified days. The achievements for the last three years is given in table 8.2.

Table 8.2 : Achievements for 2005-06, 2006-07 & 2007-08 Under Family Planning Programme

Methods used	2005-06	2006-07	2007-08 upto Dec.'07
Sterilization	5351 - 91%	5325 - 95 %	3746 - 65 %
C.C. users	8357 - 83%	10158 -110 %	8738 - 75 %
O. P.	3157 - 71%	3339 - 83 %	2707 - 62 %
IUD	2819 - 88%	2539 - 84 %	1909 - 61 %

ii) Janani Suraksha Yojana

Under the scheme, married women above 18 years of age can avail of monetary benefit i.e. Rs. 700/- for rural areas and Rs. 600/- in urban areas if they belong to the BPL family or any woman of SC/ST community for the first two live births irrespective of their income. In the year 2007-08, (till December 2007), 563 women have availed of this benefit.

Village health and nutrition day is held in all anganwadis once a month wherein, nutritional advice and various health talks related to maternal and child health are delivered to the mothers who accompany the children.

iii) Universal Immunisation Programme

In Goa, the universal immunization programme was introduced in the year 1985-86 as a part of National Health Policy. The child immunization rate is very high as the individual is immunized at birth with BCG., OPV., and Hep-B in an Institutional delivery, followed by three doses of DPT., OPV., and two doses of Hep-B in infancy, a booster dose of DPT and OVP at 1 $^{1}/_{2}$ year, DT at 5 years, TT at 10 and 16 years. During the first pregnancy, the mother-to-be receives two doses of Tetanus Toxoid. When the second pregnancy occurs within the first 3 years, she receives one booster dose. In addition, the mothers are also provided with iron folic acid tablets to be taken throughout pregnancy to lower the incidence of anemia among pregnant women. The literacy rate in Goa being high, the people avail of the facility of TT immunization after an injury.

In addition to the routine immunization sessions, outreach sessions of immunization are conducted by all the peripheral units on the first Saturday of every month wherein a team of health professionals go to underserved areas and conduct immunizations sessions. The details of Universal Immunization Programme during the last 3 years is given in table 8.3.

Table 8.3 : Immunisation Programme during 2005-06, 2006-07 and 2007-08

Vaccine	2005-06	2006-07	2007-08 (upto Dec. '07)
TT (PW)	25826	23697	18106
BCG	28221	28536	20695
POLIO	25903	24253	17495
DPT	25821	24238	17474
MEASLES	23543	23018	17466
DPT(Booster)	23567	23187	16901
OPV(Booster)	23567	23152	16896
DT-5	24417	24511	20208
TT-10	23737	24114	21248
TT-16	19685	20029	17166
Iron folic acid (PW) distributed	35959	21084	20935

RCH Outreach Camps are being held in all peripheral units wherein the local people are enlightened on the services provided under the RCH programme for family planning services. Outreach camps have been held at PHC-Marcaim, CHC-Curchorem, PHC-Quepem and PHC-Chinchinim.

"Adolescent Reproductive & Sexual Health Programme" (ARSH) is a significant component of RCH II. OPDs are being conducted in all peripheral units on a fixed day of the week wherein the adolescents can avail counseling as well as treatment facilities. In addition, adolescent health camps have also been held at PHC-Marcaim and CHC-Curchorem.

Two Mother NGOs viz: Bharateeya Sanskriti Probhodhini, Shiroda Goa, for North Goa and Sangath Society for South Goa have been identified to undertake various activities in the unserved/underserved areas of the two districts.

c. Malaria

Malaria disease still continues to be an important public health concern in the State. The total number of positive malaria cases from January to December 2007 is 9755 with 3047 Plasmodium Falciparum cases.

Important measures to tackle malaria include:

- Early Detection and Prompt Treatment (EDPT) by way of Active Passive, Surveillance and Mass Surveys. Rapid Diagnostic Kits are available at all Health Centers/Hospitals.
- Integrated Vector Control Measures, Anti adult measures comprising of chemical methods namely fogging.
- Environmental measures to prevent breeding sites.
- Prevention of mosquito bites by using insecticidal treated bednets.
- Behaviour Change Communication strategies.

- Capacity building to treat complicated cases of malaria.

d. Filaria

The Programme strategies under Filaria include:

- Night blood surveys for detection of Microfilaria.
- Morbidity management of filaria cases.
- Vector control measures.
- Information Education and Communication (IEC).
- Mass Drug Administration with Diethyl Carbamazine Citrate (DEC) tablets was observed in Goa on 15th November 2007 (National Filaria Day).

From January to December 2007, a total of 20,063 persons were screened for Microfilaria and out of these only 8 persons were found positive.

In the Mass Drug Administration (MDA) observed in Goa, a total population of 13,85,531 received (DEC) tablets.

In the calendar year 2007, upto December 2007, there were 36 confirmed cases of Dengue fever out of 52 probable cases, 9 confirmed cases of Japanese Encephalitis, out of 61 suspected cases and 24 confirmed cases of Chikungynya out of 90 suspected cases. However, no deaths were reported in either of the cases.

Following measures were taken to curb the menace:

- Investigations of fever outbreaks were done within 48 hours.
- ELISA testing facilities were started at Microbiology Department in Goa Medical College, Bambolim.
- Elimination of breeding sites.
- Capacity building to treat Dengue, Japanese Encephalitis and Chikungynya.

e. TB Control Programme

The objectives are to achieve and maintain 85% or above cure rate among New Sputum Positive (NSP) patients and detection of 70% or more such cases existing in the community.

The following are the process indicators for the TB control programme:

- Annualized NSP case detection rate 47.71%. - This is the number of new sputum positive cases registered per lakh per year. This rate is compared to the estimated NSP cases of 80 per lakh per year (for Goa) and the percentage achievement calculated. The norm is 70% i.e. 56 NSP cases per lakh per year.
- Smear conversion rate 90.90%. - This is the ratio (expressed on percentage) of New Smear Positive patients registered the previous quarter who, after treatment have become smear negative. The norm is 90%.
- Treatment success rate 75%. - This ratio denotes the number of New Sputum Positive patients who have

either been cured or have successfully completed treatment from the cohort registered 1 year earlier. The norm is 85-90%.

- Number of total DOT Providers (Pharmacists, MPHWs, AWWs & others) : 1095.

f. National Programme for Control of Blindness

The National Programme for Control of Blindness was started keeping in view the main objective of the National Programme to reduce Blindness incidences. Presently, all emphasis is laid on cataract surgery in order to reduce temporary blindness. The two District Hospitals viz. Asilo Hospital, Mapusa & Hospicio Hospital, Margao are provided with operating microscopes. The performance for cataract surgery from 2001-02 to 2007-08 is given in table 8.4.

Table 8.4 : Number of cataract operations performed

Sl. No.	Year	Target	No. of cataract surgery performed	Achievement (%)
1	2001-02	6750	5043	74.71

g. National Leprosy Eradication

The stage of elimination of leprosy achieved in the year December 2005 is sustained and brought down to 0.78 cases per 10,000 population.

Government of India provides financial assistance for various awareness programmes. The repeated awareness campaign has helped in self reporting cases of leprosy for early diagnosis and treatment. MPHWs, Anganwadi workers, teachers and NGOs are being engaged in early detection and follow up of regular Multi Dry Therapy (MDT).

Leprosy services are provided through Sub Centers, Primary Health Centers, District Hospitals, State Nucleus and Goa Medical College. Training have been given to 46 Medical Officers, 81 pharmacists, 22 Health Supervisors (M), 22 Health Supervisors (F), 153 MPHWs (M), 199 MPHWs (F) and 2 Health Educators.

All the plan activities like training, IEC and Disability Prevention & Medical Rehabilitation (DPMR), accompanied (MDT) for migrant and project workers in Goa were executed. Financial help is extended for supportive medicines to all needy patients.

Goa achieved elimination in the year 2006 and P.R.(Prevalence Rate) of 0.93/10,000 population has been maintained. As on December 2007, 127 new cases were detected. The deformity ratio is less then 2% and the child ratio is maintained at around 10%.

The new IEC guidelines 2007-08, stresses on advocacy towards eradication of stigma, early self reporting to prevent deformities and rehabilitation of old cases in view of self care and reconstructive procedures. The Central Leprosy Division has also issued guidelines to start community based rehabilitation in all the centers.

In October 2007, house to house survey was successfully conducted in the urban area of Mapusa and Margao where the number of cases were high. The coverage attained was 90% of the census population.

h. STD Control Programme

The infrastucture under STD control programme consists of three main STD clinics at 1) Asilo Hospital, Mapusa, 2) Hospicio Hospital, Margao and 3) Baina, Vasco. There is a separate unit of Skin and STD at Bambolim under Goa Medical College. The performance under the STD Control Programme during the year 2007 is given in table 8.5.

Table 8.5 : District wise performance under STD Control Programme

Sl.No	Items	Goa State	North Goa	South Goa
1	No. of STD Clinic under DHS	3	1	2

j. GOA MEDICAL COLLEGE & HOSPITAL

Achievements

- Construction of 450 bedded Medical Block at GMC complex is nearing completion. The library block is completed.
- Construction work of Yatri Niwas is almost completed.
- Cath. Lab-Cardiac unit has been re-tendered. Cardiovascular unit in an area of 4000 sq. mts. is proposed to be taken up on Public Private Partnership model along with construction of a Super-Specialty Block within GMC complex.
- The work of Computerisation is in progress.
- The in-patients, OPD patients, Cancer and Trauma patients are provided free medicines.
- Implants are provided to the needy patients/Trauma patients.
- Patients requiring joint replacements etc. are provided free joints.
- Four GATES vehicles and 2 cardiac ambulances are being acquired.
- The casualties including the trauma ward are being upgraded. The two operation theatres in the casualty block are being converted into modern pre-fabricated operation theatres.
- The installation, testing & commissioning of Mortuary Cold Storage of 28 cadaver capacity is in progress.
- Equipment like ECG machine, Boyle's apparatus, Cardiac Monitor, Operating Microscopes are tendered and will be purchased.

k. GOA DENTAL COLLEGE AND HOSPITAL

New Initiatives

- Preparing of website and computerization of all departments including patients record is under process.
- Residency programme in Department of Orthodontics, Conservative Dentistry and Periodontics has commenced. The posts of Senior/Junior Residents have been filled in order to decrease the waiting lists of patients.
- A proposal for setting up of an O.T and Ward Complex is under process. Presently, the inpatients of this Hospital are admitted in the Goa Medical College where the Department of Oral & Maxillofacial Surgery has 7 beds. This has to be increased to a minimum of 25 beds (one ward) as per Dental Council of India to start post graduation in Oral & Maxillofacial Surgery Department. Also one ambulance Jeep/Van with driver required to transport patients to Goa Medical College in emergency situation, has been proposed.
- It is proposed to link all P.G Departments to Internet facilities through the main server in the Library when installed.

Achievements

- As per the requirement indicated by the Dental Council of India, construction

work of hostel for BDS and MDS students including infrastructure facilities has been entrusted to Goa State Infrastructure Development Corporation Limited (GSIDC). The Corporation awarded the work to M/s Premier Builders at an estimated cost of Rs.539.00 lakh and the construction work is presently in full swing.

- Construction of Phase II of the college building has been entrusted to GSIDC.
- 28 students obtained the degree course in dental surgery and 12 secured Master's degree.
- 40 students were admitted to BDS and 11 for MDS during the academic year.
- 38 students completed the Post Graduate MDS course i.e. 18 in Prosthodontics, 11 in Orthodontics, 4 in Oral Medicine and Radiology, 2 in Conservative Dentistry and 3 in Periodontics Speciality.
- Presently, Hostel accommodation has been provided to 24 needy Girl students at G.M.C complex, Bambolim.
- Purchase of various equipments for Goa Dental College and Hospital is under process.
- 1,22,455 patients were treated during 2006-07, of which 361 patients were indoor patients.

l. INSTITUTE OF PSYCHIATRY & HUMAN BEHAVIOUR

The proposal for 100 bedded hospital (IInd phase) is submitted to P.W.D. for final drawing and estimate. Government has also approved the proposal for Day Care Centre and the same is being submitted to PWD for drawing and estimates. The Institute has allotted funds of Rs.1.30 lakh to Goa Psychiatric Society for "Distress Help Line" to provide counseling to the people in distress and to carry out research to find the causes of suicide. The proposal to provide barrier free built environment for disabled and elderly persons at the Institute is submitted for Government approval. Purchase of Computerised EEG Machine, Auto Analyser and Vertex mixer is under process. It is proposed to start a play therapy Unit as an extension of Child and Adolescent Clinics at the Institute. A Brief Pulse ECT machine is purchased. Television sets are placed in all wards, OPD and OT section of the Institute sponsored by IPHB Silver Jubilee Committee. Installation of fire extinguisher and supply and laying of underground cabling for power distribution network will be completed during the year.

m. FOOD & DRUGS ADMINISTRATION

As part of improved health care and ensuring that the benefits of investors reach the intended beneficiaries, the Directorate of Food & Drugs Administration is entrusted with statutory functions involved in the enforcement of various legislations as follows:

- The Drugs and Cosmetics Act, 1940 and Rules made thereunder
- The Drugs (Price Control) Order, 1995
- The Drugs and Magic Remedies

(objectionable Advertisement) Act, 1954 and Rules made thereunder

- Pharmacy Act, 1948
- The Narcotic Drugs and Psychotropic Substances Act, 1985
- Goa Narcotic Drugs and Psychotropic Substance Rules, 1987
- The Goa, Daman & Diu Prevention of Food Adulteration Rules, 1982

Licenses are granted to the following categories of food and drugs outlets in the State :

- Drugs manufacturing units (including Allopathic, cosmetic, Ayurvedic and repacking units having their own premises)
- Drugs manufacturing units on loan licence including cosmetics
- Drugs selling premises (retail & wholesale)
- Licence under Goa Narcotic Drugs & Psychotropic Substances Rules
- Food manufacturing, selling outlets (retail, wholesale, restaurants etc.)

With a view to ensure that quality drugs are manufactured by the licensed pharmaceutical firms for sale within the State as well as outside the State, regular checks are carried out at manufacturing premises as well as sale outlets. The Government of India has given directives to all the State Governments to strengthen the enforcement machinery and also to set up its own drug testing facilities in the State.

3. OFFICIAL LANGUAGE

The directorate mainly deals with the translation work of Konkani & Marathi. From 2006 onwards, Government documents are translated from Portuguese to English and vice-versa. For this purpose, Portuguese Translator has been appointed on contract basis. Government has created a post of Hindi Translator to facilitate Hindi translation. The directorate deals with the work of translation of all types of material received from various Government Departments, which includes the translation of invitation cards, citizen charter, schemes, election material, assembly questions, all developmental schemes, etc.

Commission for Scientific and Technical Terminology, Ministry of Human Resource Development, Department of Secondary and Higher Education, Government of India, New Delhi in collaboration with Goa Konkani Academy has already completed translation of Scientific and Technical Terminology in the subject of Public Administration, Zoology and Agriculture in Konkani. The work of preparation of software in Konkani has been undertaken by the Central Institute of Indian Languages (CIL) Mysore.

Provision is made to release grants to the Goa Konkani Academy to take up development of Konkani books, dictionaries and vocabularies, Konkani thesaurus, children's literature, special publications of monographs of literary heroes of Konkani, translations and transliterations of award-

winning/famous books from other languages into Konkani and vice-versa etc. It is proposed to organize symposiums, seminars and workshops and conduct Konkani certificate courses. Grants are also provided to the Gomantak Marathi Academy for research activities, publication of books, organization of seminars, symposiums and workshops to encourage development of Marathi Language. Government has already approved syllabus by the expert committee constituted by the department to impart Konkani training to the Government Officers including I.A.S. Officers.

Government has decided to jointly implement the project on preparation of glossary/ terminology in Konkani by the directorate and Commission for Scientific and Technical Terminology, Ministry of Human Resource Development, Department of Secondary & Higher Education, Government of India, New Delhi and Goa Konkani Academy. The proposed work has already started. The project on translating Central Acts in Konkani and Local Acts in Konkani & Marathi language will be implemented after glossary of legal terminology is printed.

Achievements

- Goa Konkani Academy in collaboration with Sahitya Academy in New Delhi organized the programme 'Writer meets you' (Lekhak Tumchem Bhetek) programme in the Black Box of Kala Academy, Panaji. The programme was well attended by the audience. In this programme, Sahitya Academy award winner poet Shri Ramesh Veluskar had a dialogue with the audience and shared his views on his life and literature. Shri Damodar Mauzo, convenor of Konkani Advisory Committee of Sahitya Academy and Shri Prakash Bhatambrekar, Regional Secretary of Sahitya Academy were present on the dias.
- The book releasing function of two Konkani poetry books entitled 'Krishna Kali' and 'Panjenl' written by Dr. S.M. Tadkodkar, was held in the auditorium of Goa Konkani Academy. The function was organized by Kedar Prakashan in collaboration with Goa Konkani Academy.
- Konkan Times publication in collaboration with Goa Konkani Academy, organized book release programme titled 'Dartrecho Sparsh' a collection of short stories written by Shri Tukaram Shet in the auditorium of Goa Konkani Academy.
- Goa Konkani Academy has formulated the Konkani Educational Scholarship Scheme to confer the scholarship to Konkani students for the year 2007-09.
- Goa Konkani Academy and Goa Writers Group jointly organised a programme of Panel discussion on the topic “Promoting Bhasha Literature Through Translation”.
- Goa Konkani Academy has participated in the exhibition organised by National Book Trust, New Delhi and Institute Menezes Braganza, Panaji in order to

celebrate the "National Book Week" from 14th to 21st November 2007.

- Goa Konkani Academy organized a one day workshop on 'Teaching children's songs and dances in Konkani' on 17/11/2007 in collaboration with Yash Prakashan, Okamb, Dharbandoda at Holy Cross Institute Hall, Quepem, for teachers of South Goa.
- Goa Konkani Academy in collaboration with Konkani Bhasha Mandal, Margao, organized a one day workshop for budding Romi writers in Konkani at Konkani Bhavan, Margao. Around fifty writers participated in the workshop.
- Gomantak Marathi Academy organized a Book discussion programme. In this programme, Shri Dadu Mandrekar, a well known Goan Marathi writer was the Reader for the book 'Vital'.
- Annual day function of felicitating and distributing various awards to all the students who have scored 90% and above in Marathi subject at S.S.C. and H.S.S.C. was held.
- Distribution of various awards to Marathi Teachers of Primary, High School & Higher Secondary level was held.
- Gomantak Marathi Academy organized a story telling competition on 25th November 2007 under the guidance of Smt. Monica Gajendra Gadkar. Three best stories were selected and awarded.

4. SOCIAL SECURITY, WELFARE AND WOMEN EMPOWERMENT

In a bid to include the excluded, the State has made all out efforts to provide the mass with all services/aspects of development whether economic or social. The aim is to reach all-poor people, differently abled persons, old, infirm, destitute, widows and other socially disadvantageous section of the society. The Dayanand Social Security Scheme initiated by the Government has received an overwhelming response from the people of the State. Under the scheme, pension is provided to single women, disabled persons and senior citizens. Financial assistance has been enhanced from Rs.750/- to Rs.1000/- p.m. A member in the family gets financial assistance of Rs.1000/- per month in the first year, which increases at the rate of 5 % annually. This has been a major success in providing social security net to nearly a lakh population of Goa.

Senior citizens are entitled for various welfare measures like 50% concession in fare in KTC buses, 30% in railway fare to those who have completed 60 years and 50% concession on air travel to those who have attained the age of 65 years and above. They are also entitled for 1 % higher rate of interest on fixed deposits in Banks.

During the year 2007-08 (upto Dec. 2007), 162 families have been assisted under Housing Programme, 4608 SC, ST & OBC students were assisted under Education Programme, 184 disabled students have been assisted by way of stipends/ scholarships and financial assistance was provided to 50 persons with severe disabilities. Also 146 children of Safai

Karmacharis have been provided with pre-matric Scholarships, 6 couples have been covered under the programme 'Awards for Intercaste Marriages' and 25 persons under the scheme of 'Awards for marriages with disabled persons', 72 persons have been trained under awareness programme to rehabilitate persons suffering from disabilities such as locomotive disabilities, speech, hearing impaired, visually disabled and mentally retarded.

Goa is the 1st State in the Country to have its own State Policy wherein it provides equal opportunity and a barrier free environment. All public places and Offices shall be barrier free by end of year 2008.

The State Government has announced a new policy of employment for Differently Abled Persons, wherein private sector employers will be provided with financial contribution if employment is provided to them.

State Awards of Rs. 25,000/- each to the best disabled employee and to the employer who provides extraordinary assistance to disabled employees and Non-Governmental Organisations for providing selfless services to the disabled.

The State has formulated the Tribal Sub-Plan for the first time by evolving suitable schemes for the welfare and development of tribal population.

"Gouly" being a Backward Class Community in the State, the Government has envisaged a "Special Development Plan" for this Community under the title "Gokul". It provides assistance for shelter, daily livelihood and self-employment under the Plan. 141 solar lanterns have already been provided to the Gouly households in Sattari, Ponda, Sanguem, Quepem and Cancona Blocks. Besides, two young Professionals have been appointed to provide legal assistance in Mundkarial cases.

Through the scheme Sahara, insurance cover is provided to the workers in the organized sector in collaboration with LIC. During the year 2007-08 upto January '08, about 35,782 beneficiaries have been enrolled under the scheme.

Under the Kanya Dhan scheme, 180 girl students belonging to SC/ST community have been enrolled and provided assistance.

15 beneficiaries for new construction and 1312 beneficiaries for Upgradation have been assisted under the Rajiv Awas Yojana scheme.

The State has proposed to construct Boys Hostel to the students belonging to ST families at an estimated cost of Rs. 1.00 crore in Tiswadi taluka.

A felicitation function was organized on the "International Senior Citizens Day" on 1st October 2007 in the Seminar hall, Secretariat, Porvorim. Sixteen Senior Citizens were presented with a momento & a shawl on the occasion.

i) WOMEN & CHILD DEVELOPMENT

Towards empowering women and providing gainful employment opportunities to them, women Self Help Groups are encouraged to take up income generating activities by providing them seed money support. It is proposed to appoint a resource person in each taluka to interact with the groups and train them to produce value added quality products. Exhibition and marketing infrastructure for such groups in each taluka to showcase and sell their products will also be provided. In order to improve the status of women in Goa, the Government of Goa in pursuance with the Goa State Commission for Women Act, 1996 has reconstituted the Women's Commission. The Commission was involved in the rehabilitation programme of the Baina commercial sex workers by interacting and conducting socio-economic survey and providing them with interim relief. A scheme is formulated for rehabilitation of commercial sex workers and other residential and commercial establishments demolished at Baina. It is proposed to implement a new scheme "Swawalamban" with the objective of providing training and skills to poor and needy women in rural and urban slums.

Achievements

- There are eleven ICDS Projects and 1112 Anganwadi centers provide supplementary nutrition programme for 21+ days in a month to 25,422 children in the age group 0-3 years, to 17,891 children in the age group 3-6 years and to 10911 pregnant and lactating women. The children are provided with a nutritious and protein packed diet of cereals and pulses.
- All the AWCs are well-equipped with play-way cum educative material. PSE Kits have been supplied to the Centres @ Rs.500/- per kit. Efforts are on to educate/train all the ICDS functionaries to make the AWCs attractive by creating a child-friendly ambience.
- With a view to enhance health care of the children attending the AWCs, Medicine Kits @ Rs.698/- per kit are supplied to the AWCs. During the current year, additional 100 AWCs are made operational. Under pre-school education/health care 16,856 beneficiaries of which 8657 boys and 8199 girls in the age group of 3-6 years are taken care by these AWCs.
- During the year upto December 2007, 1300 adolescent girls have undertaken vocational training under Kishori Shakti Yojana.
- Construction of 19 AWCs is in progress and two Anganwadi centres have been inaugurated. Besides, under tribal Sub-Plan, 21 AWCs have been sanctioned by DRDA and 10 by Directorate of Social Welfare.
- Apna Ghar, at Merces established under the Juvenile Justice (Care & Protection of Children) Act, 2000, presently houses 60 children i.e. 24 girls and 36 boys.
- The scheme "Welfare of Children in need of Care & Protection" provides services to the orphans and destitute

children upto the age of 18 years, thus rehabilitating them as normal citizen.

- The Child Welfare Committee constituted under the Juvenile Justice (Care & Protection of Children) Act, 2000 deals with matters pertaining to the children in need of care and protection. The cases are being dealt by this Committee. The Juvenile Justice Board deals with children in conflict with law.
- The Protective Home-cum-Reception centre at Merces is functioning under the Prevention of Immoral Traffic Act, 1956. Girls/women rescued from prostitution are lodged in this home. The Directorate in collaboration with two NGOs viz. WISE and UNIFEM has organized 2 district Level Convention and State Level Convention for formulating Action Plan to combat trafficking of women and children. The Government has appointed Special Police Officers under the Act to take cognizance of the offence under ITPA.
- The State Government has reconstituted the Goa State Commission for Women under Goa State Commission for Women Act, 1996. The Commission looks into various issues pertaining to women's rights and family law in Goa. They receive/register the complaints from the affected women, hear and counsel the families and provide legal advice.
- A scheme viz. "Shelter Home for Women" is implemented which aims to provide temporary shelter and rehabilitation for women who has no social support due to family problems, mental strain, social ostracism, exploitation and other causes. Besides counseling and skill training the women are provided with all basic amenities like food, shelter and clothing. Grants will be released to Ishh Kripa Sadan, Siolim, Gomantak Lok Seva Trust, Anjuna, Recolhimento De Serra, Altinho, Panaji, Yashasvi Mahila Mandal, Bordem, Bicholim and Shelter Home for Women, Majorda.
- The Goa Children's Act, 2000 protects, promotes and preserves the best interests of children and create a Society that is proud to be child friendly. 104 cases have been registered under the Children's Act as on 31-12-2007.
- The Goa State Commission for Children has been notified in November 2004 to promote and maintain the best interest of all children and to ensure their rights. A children's week is celebrated by holding competitions on paintings, posters, essays and Logo involving all the schools in the State.
- Four District Inspection Teams have been constituted for the State. The District Inspection Team recommends the Children's Homes for registration and inspects them periodically. The process of registering the Children's Home under the Goa Children's Act, 2003 is in progress. Till date 35 Children's Homes have been registered in the State. The Government has appointed all Taluka Mamlatdar's as Special Officers within the jurisdiction of respective taluka.

- Yashodamini Awards are awarded to eminent women who have excelled in various fields. 3 women were presented with the award which carries a silver tray and an amount of Rs.10,000/- each.
- 11 Self Help Groups are constituted by the Board benefiting 175 women under the scheme "Yashashwini". Financial assistance is given to each women to start the business of which 75% is interest free loan to be repaid within 5 years and 25% is given as subsidy.

Protection of Women from Domestic Violence Act, 2005

The Act is basically meant to provide protection to the wife or female live-in partner from violence at the hands of the husband or male live-in partner or his relatives. The law extends protection to women who are sisters (including adopted) and mothers. The Government has appointed 11 BDOs as Protection Officers for respective talukas and 2 Chief Executive Officers, Zilla Panchayats for North Goa District and South Goa District to perform the duties and functions under the said Act. So also, 2 Service Providers are registered in the North and 3 Service Providers are under consideration in the South Goa District.

5. LABOUR & LABOUR WELFARE

i) Labour Welfare

Achievements

- The Contract Labour (Regulation and Abolition) Goa Amendment Bill, 2004 has already been introduced in the Assembly to abolish contract labour.
- The minimum wages fixed for daily rates/casual workers in Government departments have been enhanced to Rs.147/- per day from Rs.98/- per day from June 2007.
- It is proposed to set up one more additional Industrial Tribunal-cum-Labour Court in 2007-08 so that industrial disputes pending adjudication are disposed off. Efforts are being made to fill up the vacant post in both the Tribunals. It is also proposed to intensify the enforcement of Labour enactment of both Central and State Government.
- Construction Workers Welfare Fund is set up and cess shall be collected after the approval of various authorities under the Act.
- A sub-committee formed under the Chairmanship of Dy. Labour Commissioner North & South Goa & Asst. Labour Commissioner & Labour Inspectors of respective talukas as members carried out inspections, raids and resin operations as well as awareness operation campaigns from 14th to 30th November 2007. 1626 inspections have been carried out under Child Labour Act from April 2007 to November 2007.
- An intensive drive is undertaken by the Enforcement Machinery in the hospitality sector with the active assistance of Child Labour Project Society to identify the children employed in hazardous

employment.

- Seventeen welfare schemes have been framed for providing monetary benefits to workers in the lower bracket of income.
- 675 beneficiaries have availed the benefit of the Retrenched Workers Assistance scheme and the expenditure incurred was to the tune of Rs. 147.00 lakh upto November 2007.
- As on 30th November 2007, 146146 cards have been issued under the Smart Card scheme.
- It is proposed to open Labour Welfare Centres at Cuncolim and Paroda, Quepem.
- The revenue collected from April 2007 to November 2007 under different labour legislations viz. Shops & Establishments Act, Motor Transport Act, Trade Unions Act, etc. is Rs. 19.37 lakh.
- Under the ESI scheme, 1,27,579 persons were insured and 72,667 persons were registered with Medical Institutions and the expenditure incurred was to the tune of Rs. 70.69 lakh.
- The Regulation and Employment & Condition of Services Act, 1996 regarding building and other construction workers is being implemented. The contribution of 1% cess under Building & Other Construction Workers Welfare Cess Act, 1996 is under process and the same will be implemented immediately.
- During the year upto Nov. '07, 2729 inspections were carried out under various Labour Laws, 114 prosecutions were launched, 41 defaulters were convicted, 94 industrial disputes were raised and 46 cases were disposed off by way of settlement.
- Under Workmen Compensation Act, 27 cases were disposed off and Rs.72.00 lakh was disbursed as compensation for fatal cases and Rs.99.00 lakh for non fatal cases.
- Under Payment of Gratuity Act, 34 cases were disposed off and Rs.8.56 lakh was paid as compensation.

ii) REGIONAL EMPLOYMENT EXCHANGE

During the period from December 2006 to October 2007, under Compulsory Notification of Vacancies Act, 1959, 59 inspections were carried out. There are 1199 i.e 467 public and 732 private establishments providing an estimated employment in the organised sector to about 1,30,900 persons as on March 2007. The E.M.I. section also collects information on census of Central Government Employees located in Goa once in two years. The Employment Exchange is in the process of collecting and feeding the Off-line data regarding courses that are available and could be taken up by student community after passing out from Secondary School. After completion of this process, the same will be made available on the web whereby a student could directly opt for the courses available in the State depending on his/her eligibility criteria.

During the year 2007-08 (up to November

2007), 10,075 persons were registered, 33,972 applications were submitted, 3,997 vacancies were notified and 2059 candidates were given placement.

iii) INSPECTORATE OF FACTORIES & BOILERS

The total revenue collected during the year 2007-08 (April 2007 to November 2007) is Rs.49.22 lakh towards license fees under the Factories & Boilers Act, training of factory personnel, hostel rentals and others. Under Factories Act, 1948 and Rules thereunder, 111 factory plans were scrutinized out of which 40 plans were approved and 17 new factory licences were issued. Under the Indian Boilers Act, 1923 and Rules there under, 54 inspections were carried out and 9 new boilers were registered. Health surveys of 328 workers were carried out through the Mobile Occupational Health Laboratory to monitor their occupational health. 1412 factory personnel from various cadres were trained in Industrial Safety and First Aid which included special training.

iv) HOUSING

Goa Housing Board

Achievements

- The Board has prepared the draft State Housing & Habitat Policy and submitted to the Government for approval.
- Due to amendments carried out to the Regulation governing the allotment of plots, the Board is able to collect composition fees and seek extension of time for the construction of building/houses in the allotted plots beyond the period of three years.
- The Board charges nominal fee for the execution of sale deeds and has collected Rs.0.97 lakh during the year.
- The Board has taken initiatives to amend the Act & Rules in order to simplify the process of allotment and to make it more people friendly. It has removed the domicile criteria wherever there is no demand for constructed houses and has also offered staggering installments so that the allotees are able to purchase the Housing Board's tenements/flats. The Board has collected Rs.1.31 lakh during the year towards composition fees.
- Land development under phase-II at Colvale with the tendered cost of Rs.78.55 lakh is undertaken.
- Conversion of office premises in to residential plot in the Board's Commercial-cum-Residential Complex at Rumdamol, Davorlim with the tendered cost of Rs.11.99 lakh is undertaken.
- Construction of roads & gutters and development of Sector “F” at Ganeshpuri Mapusa with the tendered cost of Rs.20.80 lakh is in progress.
- Beautification of Goa Housing Board office premises at Porvorim, with the tendered cost of Rs.12.47 lakh is in progress.
