MANOHAR PARRIKAR
CHIEF MINISTER, GOA

MESSAGE

I am happy to learn that the Directorate of Planning, Statistics & Evaluation is releasing the Provisional results of the Sixth Economic Census on 22nd August, 2014.

The field work of Sixth Economic Census involved counting of all the Establishments of the State, excluding those engaged in Crop production, Plantation, Public Administration, Defence and Compulsory Social Security Services, scattered in about 3600 enumeration blocks of the State. It was indeed a mammoth exercise successfully completed by the Directorate of Planning, Statistics & Evaluation with necessary technical and other support provided by the Central Statistics Office. It was also heartening to note that the results are being released within two months of the completion of the field work.

I extend my warmest felicitation to all those who have made Sixth Economic Census exercise a success.

(Manohar Parrikar)

MESSAGE

I am happy to learn that the 6th Economic Census, one of the most complex and massive administrative exercise which inter - alia required training an army of primary field workers and collecting information from all establishments - big or small in the private or public sector, is completed in Goa recently by the Directorate of Planning, Statistics and Evaluation.

The 6th Economic Census is the only source which provides total number of establishments in both the organized and unorganized sectors and manpower employed therein by type of ownership along with the distribution by geographical locations.

.

I congratulate all the staff of the Common Statistical Cadre for completing this herculean task of conducting the 6th Economic Census in shortest possible time.

(Dattaprasad Kholkar)

P. KRISHNAMURTHY, IAS
SECRETARY TO CM
SECRETARY (FINANCE & PLANNING)
Government of Goa

सत्यमेव जयते

MESSAGE

The Economic Census provides a count of all establishments engaged in Economic activities, including those in the unorganised sector.

The Sixth Economic Census has several salient features including use of Enumeration Blocks (EBs) of Population Census 2011, both in rural and urban areas, so that results of the Sixth Economic Census can be synchronized with those of Census 2011 and accordingly its utility is enhanced. Further, Handicraft / Handloom establishments were identified separately for the first time and data compiled. To seek cooperation and ensuring complete, correct and timely responses from respondents, the Collection of Statistics Act 2008, was invoked during Sixth Economic Census.

The present report is based on the information tabulated from the data contained in the 'Establishment Abstract', Schedule 6B. I hope the compilation would be useful for all the concerned stakeholders.

It is heartening to note that Directorate of Planning, Statistics & Evaluation has completed the fieldwork and scrutiny of canvassed schedules within stipulated time period.

I further place on record the tireless efforts of the whole team of Economic Census Unit, DPSE in successful conduct of Sixth Economic Census and also bringing out this report.

(P. Krishnamurthy)

SIXTH ECONOMIC CENSUS IN GOA

INTRODUCTION

- Economic Census (EC) is the complete count of all Establishments/Units i.e. units engaged in production and/or distribution of goods and services located within the geographical boundaries of the country.
- The exercise of Economic Census is undertaken by all States/Union Territories under the aegis of Central Statistics Office, Ministry of Statistics & Programme Implementation, Government of India.
- The Economic Census, a Central Scheme, is conducted on Quinquenial basis.

- In India, five Economic Censuses have been conducted in the past.

- The 6th Economic Census was conducted during January, 2013 to April, 2014 in all the States & Union Territories of the Country in collaboration with State/UT Governments.

- In Goa, the 6th Economic Census was launched during July, 2013.

- All units engaged in production or distribution of goods or services for the sole purpose of own consumption are not covered under Economic Census.

    A. In case of Agriculture Establishments : Establishments engaged in crop production and plantation are not covered.
    B. In case of Non-Agriculture Establishments : Establishments engaged in public administration, defence, compulsory social security, activities of households as employers of domestic personnel, activities of territorial organizations and bodies are not covered during Sixth Economic Census. Also, gambling and betting activities which are declared illegal are not enumerated.

- During the course of house to house visits, information on the following 14 variables was collected.
    1. Type of house structure.
    2. Total number of members in the household.
    3. Total salaried and wage earners in household.
    4. Number of Establishments outside household with fixed structure, if owned by household member.
    5. Number of Establishments outside household without fixed structure, if owned by household member.
    6. Number of Establishments inside household owned by household member.

7. Categorization of activity by handloom/handicraft and others.
8. Ownership of Establishment.
9. Sex-wise number of proprietary Establishments.
10. Social group-wise number of proprietary Establishments.
11. Religion-wise number of proprietary Establishments.
12. Total number of Establishments by nature of operation such as perennial, seasonal and casual.
13. Total number of Establishments by different sources of financial assistance availed of.
14. Sex-wise number of hired and non-hired workers.

- Besides the above, following details in respect of Establishments, those have reported 8 or more workers engaged with them, are collected :
    1. Age of the Establishment.
    2. Availability of Internet facility.
    3. Use of Power in production of goods and services.
    4. Registration information in respect of each Establishment.
    5. Type of the Establishment i.e. whether an Export Unit?

- Approximately, 1200 Anganwadi Workers were engaged as primary field workers and the field operation was conducted during October, 2013 – February, 2014.

- They were ably supervised by 35 Supervisors drawn from amongst statistical personnel of the Common Statistical Cadre.

- The primary field workers and supervisors were imparted extensive classroom training and practical field demonstrations.

- During the course of house listing, 3, 43,611 houses/structures were enumerated across the State.

- Also, 97,326 Establishments were recorded in Goa.
